

BEE GOOD, PLANT SUNNIES*

***MILTON BEE CLUB SUNNIES**

Helianthus annuus (oilseed sunflower)

The Peredovik oilseed sunflower is beautiful, but also highly beneficial to your local pollinators and wildlife population. This tall growing plant can reach up to six feet tall and reaches maturity in about 80-100 days. Plant in spring and early summer.

Growing instructions:

(each bag contains approximately 10 Peredovik oilseed sunflower seeds)

1. Select a sunny location with well-draining soil.
2. After all danger of frost has passed, sow 1/2"-1" deep, 8-12" apart.
3. Water regularly and they will sprout in 5-8 days.

BEE SUNNY!
