

Singing & Recording Experience Party Events for VIP Pop Stars.

Strathaven Sounds Recording & Tuition Studio can offer you, your kids and their friends a party that is fun, unique & special. Young ones will be experiencing the thrill of recording a song just like their favourite pop stars do in a professional recording studio.

We welcome ages 7 + to record their very own track of a song of their choice. The backing track & the lyrics will be sent out prior to the studio date to allow for a rehearsal and to decide who's singing what part.

We have highly qualified and experienced sound engineers and vocal coach to make the recording session run smoothly and the track will be mixed and mastered with everyone getting an MP3 of the song. The studio recording experience will run for 3 hours and is sure to make a wonderful memory for years to come. Contact strathavensounds@gmail.com
