

# CAPABILITY STATEMENT

## COMPANY OVERVIEW

---

R&R Aerospace is a world class supplier of precision, complex, contoured, machined aircraft components and small assemblies. Currently, R&R has over 30,000 sq. ft. of climate-controlled facilities. Our commitment to continuous improvement is demonstrated by our ongoing investment in equipment, facilities, and people. In the last few years, R&R has added over \$4.5 million in facility and equipment upgrades.

What sets us apart?

- Our People – key staff has over 150 years' experience.
- Our commitment to Quality
- Our location – Wichita, KS

## CORE COMPETENCIES

---

Currently, R&R has 21 CNC machines that can perform 3, 4 or 5 axis milling. R&R can machine parts that can fit in your hand up to one as large as 168" long and 102" wide, weighing as much as 15,000 lbs. With a special emphasis on titanium and other hard metals, R&R can also machine all common aerospace alloys (aluminum, titanium, steel). Our facilities are located in Wichita, KS where our approved suppliers are world class. We also have great relationships with suppliers outside of the area. As a major supplier to tier 2 and 3 suppliers, we have had the opportunity to manufacture a wide range of technically difficult product for commercial and defense aerospace.
