

O.D.2A Custom Works & Training

Teaching people to be, safe confident shooters.

Private In-Home Group Classes: Our In-Home group class is a 5 hour class in a group setting and covers a variety of education, legalities, firearm manipulation, dry-fire and live-fire.

Our Private In-Home Group Class is a great option for those wanting a more exclusive setting. We know how intimidating the world of firearms can be and what better way to learn than in the comfort of your own home with friends and family! Private Group Classes are GREAT for first time shooters, beginners, families, couples, people looking to refresh their skills/foundation, team building events, corporate events, church events, and more!

For the In-Home training class, we (O.D.2A) will bring all the supplies, tools, and lesson plans to the home of your group's choosing. Once at that location we will conduct the classroom portion up to actual live-fire. We then head to the shooting range (where the live-fire portion occurs) and conclude the class there. Keep in mind, this option requires the group's transportation to a range which is NOT provided by O.D.2A.

**** There is a 4 person minimum for all group classes ****

Private In-Home Group Class Price: \$350 (Price is per person and includes range/instructor travel fees and all class supplies. Does NOT include ammo)
