Late Arrival Policy

We understand that life can be unpredictable. However, our Late Arrival Policy helps maintain a quality experience for all clients, respecting both your time and ours.

Grace Period:

Clients have a 5-minute grace period from their appointment start time. We will do our best to accommodate minor delays.

Arrivals beyond the 5-minute grace period may result in a reduction of hands-on time during the session to avoid delays for subsequent clients.

Full Payment

The full fee for the originally scheduled service will be charged, regardless of reduced time due to late arrival.

Notification:

If you know you're running late, please call us as soon as possible. This allows us to make real-time adjustments and inform your therapist and/or electrologist.

By signing this document, you acknowledge and accept these terms. Your cooperation allows us to better serve all of our clients and is greatly appreciated.
