

Dear Senator Cruz,

My name is Joe Motos Gordon and I am a retired Air Force officer, PhD physicist, husband, father, a Texas Republican constituent who supported your re-election in 2018, a writing contributor to "The Federalist" and "American Thinker" publications, and, ultimately, a proud American who emigrated from the rice fields of the Philippines and can't imagine a greater country on Earth than the U.S.A.

Bottom Line Up Front (BLUF):

I humbly implore you to support the upcoming Electoral College challenge by U.S. Rep. Mo Brooks (R-AL) when Congress convenes on 6 January 2021. The bedrock of our Republic is under attack. As James Madison put it, "the CAUSES of faction cannot be removed, and that relief is only to be sought in the means of controlling its EFFECTS. If a faction consists of less than a majority, relief is supplied by the republican principle, which enables the majority to defeat its sinister views by regular vote." I submit to you Senator Cruz, that preserving the sanctity of the "vote" and thus the People's confidence in the "vote" is arguably more powerful than the right to keep and bear arms in the preservation of our Republic. Though deceptively subdued, the subtlety of its power and influence on the destiny of our Republic is staggering. This fight NOW is that important.

Discussion:

I know you've seen and heard the multitudes of data and the hundreds upon hundreds of signed affidavits from those with first-hand evidence of observed voter fraud throughout the 2020 Election. The results from the recent forensic audit of the Antrim County (Michigan) Dominion Voting Systems machines is astounding. The findings in the recent Navarro Report are also shocking. And our State's own lawsuit headed by Texas Attorney General Ken Paxton did an excellent job of not only summarizing a great deal of the fraud encountered by our fellow American citizens, but more importantly, laid out what we all collectively understood to be a strong case for "original jurisdiction." As stunning as the SCOTUS' decision was to dismiss the lawsuit, it is even more tragic that We The People were denied an airing of grievances from THE arbiter in the land. I know you know this, but tragically, the vast majority of American citizens have been deprived this information due not just to blatant censorship in both the "mainstream" and social media, but as you well know, due to the fact that NO COURT OR JUDGE OR JUSTICE in the land has allowed the presentation of ANY evidence before the courts.

So, what do I, as your constituent, request of you, MY ELECTED VOICE in the upper chamber? Simply this: that the voluminous evidence of election fraud in the 2020 Election be discussed and presented to the American people by having our NATIONAL ELECTED REPRESENTATIVES robustly debate them in Congress. Thus, I humbly implore you to support the upcoming Electoral College challenges by U.S. Rep. Mo Brooks (R-AL) when Congress convenes on 6 January 2021. Now is not the time for the courage of Men to fail.

I welcome the opportunity to discuss this further with you.

Thank you, and have a very Merry Christmas!
