

Sanitary Contract SC956 (Sanitary Sewer Collection System Improvements to the Herring Run Sewershed)

October 1, 2020

To Whom It May Concern,

Below is the project construction status update. As of the writing of this memo the Project stands at 85% complete of the Contract’s scope of work. Major work items are anticipated to wrap up in early November 2020 but there may be some small “punch list items to complete, mainly in the form of restoration work.

Work in Progress and Anticipated Work (October 2020)

• **CIPP Lining**

- E Belvedere Ave – North side of the street Between Clearspring Road and Orkney Road
- 5913 – 5919 York Rd

Work crews will access existing sewer lines via manholes to insert new lining sleeves into the pipes which will be “cured in place” effectively creating a new structural pipe. Residents may be asked to reduce their wastewater producing activities during this process, ie. laundry, dishwashing, excessive toilet flushing, etc., with full service restored at the end of work each day.

• **Point Repair Work (Open Cut)**

- York Road at Evesham Avenue
- 1327 -1349 Stonewood Road
- 4410 Kenilworth Ave
- 922 43rd Ave
- 1307 Kitmore Rd

For this work residents will be requested to limit their usage of the waste producing facilities, (ie. Toilet flushing, clothes washing, dish washers, etc.), during the active work hours from 8 AM to 3 PM. There will also be noise from excavation equipment and cutting tools and in some instances water usage may be limited.

• **Manhole Location and Elevation Adjustments (Open Cut)**

- Various Locations

Existing manholes are identified as not meeting the existing grade and will be adjusted accordingly to created adequate maintenance access and safe traffic conditions. For this work there will not be any disturbance of service to residents. There will be some noise and temporary traffic modifications to facilitate this work.

• **Restoration Work (Paving Repair)**

- 1300 Block of Kitmore Road
- 1339 Kitmore Rd- Sidewalk Rehab
- 5104 Saint Georges Ave- Grass Rehab
- 211 Hollen Rd.- Grass Rehab
- 1713 -1720 E. Belvedere Ave. – Grass Rehab (Redo)

For this work residents may have access to sidewalks and/or driveways blocked and re-routed while work is in progress and during any concrete curing process. This work may also involve the spreading of grass seed and straw to stabilize the disturbed soil and promote regrowth of the vegetation.

CITY OF BALTIMORE

Bernard C “Jack” Young, Mayor

DEPARTMENT OF PUBLIC WORKS

Matthew W. Garbark, Acting Director
Abel Wolman Municipal Building, 6th Floor
200 N. Holliday Street
Baltimore, Maryland 21202

We hope this provides insights for upcoming work as we strive to timely and safely complete this project. If you have any question, you may call (410) 396-4700, Monday through Friday, between 8:30 AM and 4:30 PM. Additional information and resources are also available on our website <https://publicworks.baltimorecity.gov/>.

Sincerely,

A handwritten signature in blue ink, appearing to read "Tony Mbakwe".
