Thank You and Farewell...

Heartfelt thanks to all of our students and BBLC families for an amazing and unprecedented school year. In spite of our "abbreviated" year, we've had a memorable one, watching your children blossom. What strides they've all made since first stepping through the door in September! Learning and growing never stop, and it was gratifying to watch (virtually), how so many of them, with their parents' help, adjusted to the new normal. That said, we are looking forward to getting back into the classroom and beginning a new school year. We bid a bittersweet farewell to students and families that are moving on. Families - we are grateful for the time you shared your unique and beautiful children with us. We're counting on your staying in touch and look forward to hearing about your continued adventures!

Drive-thru Pick-up Reminder

On Thursday, May 7th, our car loop will be set up for the safe pick-up of school materials. Please come at your assigned time and, if you are receiving a refund, kindly remember to bring your signed and completed Acknowledgement Form with you. No refunds will be given without this form. All items going to/from the school will be placed in your car's trunk, and at no time can you exit your car while on St. Peter's property. Refer to the email sent on 4/24 for all of the detailed instructions. Teachers will wave to you as you proceed through the loop, but please be respectful of the outlined procedures that have been put in place for your safety.

For simplicity, all checks will be made out to mothers of our families, unless you make alternate arrangements with Michele, ASAP. (office@bblcinc.com)

Tuition Envelopes

The white and green tuition envelopes will be returned to you at the scheduled pick-up. We will actually place your refund check inside of this envelope. Please keep the envelope for your 2019 and 2020 tax records, as it notes check numbers and amounts paid for tuition.

Next School Year's Calendar

If the world gets back to some type of safe normalcy (please, oh, please!), our 2020-2021 school year is intended to begin in September. Our Parent/Child Orientations are being scheduled for September 8th and 9th. Communication regarding activities pertaining to the beginning of school should reach you in early August. Consideration is being given to going paperless on this, so keep an eye out for a possible email containing the information to arrive at that time.

Over the Summer...

I will be checking phone messages and emails daily, so please don't hesitate to reach out to me with any questions. We still have a Step 1 seat and a few Step 2 seats available for the 2020-2021 school year; if you have any interested friends, kindly pass our information along! We will also be keeping up to date with any instructions from the state regarding potential COVID-19 modifications to our school procedures. Schools may be required to change some operations in order to comply with any new directives. And, if not, we may be implementing some things on our own, just to further err on the side of caution in keeping our students and staff safe. Safety, as always, will be at the forefront of all decisions made.

Thank you for your devotion and support this year. We love and miss you all! Have a safe summer!

Fondly,

Colleen
