RECREX & VAN AMEYDE

Strategic Partnership Increases Claims Servicing Capabilities

Madrid – **RECREX INTERNATIONAL INSURANCE SERVICES** has agreed to a strategic partnership/agreement with **VAN AMEYDE** designed to deliver a range of expanded service benefits for our mutual TPA Services to clients across Europe.

RECREX has been undergoing a period of rapid growth within its Claims Solutions and innovation team led by Steve Lulewicz, SVP – Global Business Development. This agreement will build on existing capabilities and add to growth capacity. The partnership will enable both firms to significantly strengthen their geographic operations and expand technical expertise to clients across the Pan-European territory.

Daniela Badaluta, President of RECREX said: *“We want to ensure that our partners share the same culture and standards as RECREX and VAN AMEYDE and also have the technical capabilities to deliver a market-leading level of services to clients. Our discussions have been detailed and have centered around the mutual benefits that such a strategic partnership will bring not only to RECREX and VAN AMEYDE, but to the market in general.”*

Steve Lulewicz, Senior Vice President of RECREX said: *“We provide similar services for particular lines of business yet, remained fragmented in our geographic reach. This solves that issue and enables true Pan-European servicing capabilities, particularly related to programs originating in the CEE market.”*

“The fact that the benefits of this partnership will be quickly implemented and realized illustrates the motivation of two market leaders who are continually looking to go one step further for their clients by leading the way to continual improvement and service deliverables.”

Frank Verschuur, Regional Director South West Europe, Van Ameyde said: *“We are glad to work along with RECREX, another specialized service provider for insurance companies dedicated to client satisfaction just like Van Ameyde. The IT expertise of Van Ameyde, client focused service and as well as a constant desire for innovation, contribute to this strategic cooperation with RECREX”.*

About RECREX IIS

RECREX is an Insurance Services Company serving the risk management needs of clients in Europe. Within the past year, Recrex has successfully extended its reach by developing claims management programs and services to meet the evolving needs of clients with local and global exposures. Recrex’s business units deliver fully customized programs and a superior servicing platform. With extensive coverage, best in class network providers, and advanced technologies, Recrex provides seamless, centralized management and operational efficiencies highly valued by the global TPA market.” For more information, visit: www.recrex.group

About VAN AMEYDE

With offices in 28 European countries and over 700 professional claims and legal experts, Van Ameyde is committed to securing the client’s story throughout the claims journey. Van Ameyde, one of Europe’s major third-party administrators (TPA) for claims administration, is poised to collaborate with RECREX, exchanging knowledge from experience, and expertise, growing the network, and, most importantly, assisting clients in overcoming their challenges.
