Transforming your Physical Spaces Into the Digital World

Data + Acquisition + Reality + Capture

What is APEX360?

APEX360 creates immersive 3D models of sites and locations. The technology and software used will scan and capture physical spaces to turn them into a digital replica, which will then be uploaded online. Every captured space will showcase a realistic experience to allow users to feel like they are in a location without ever being there.
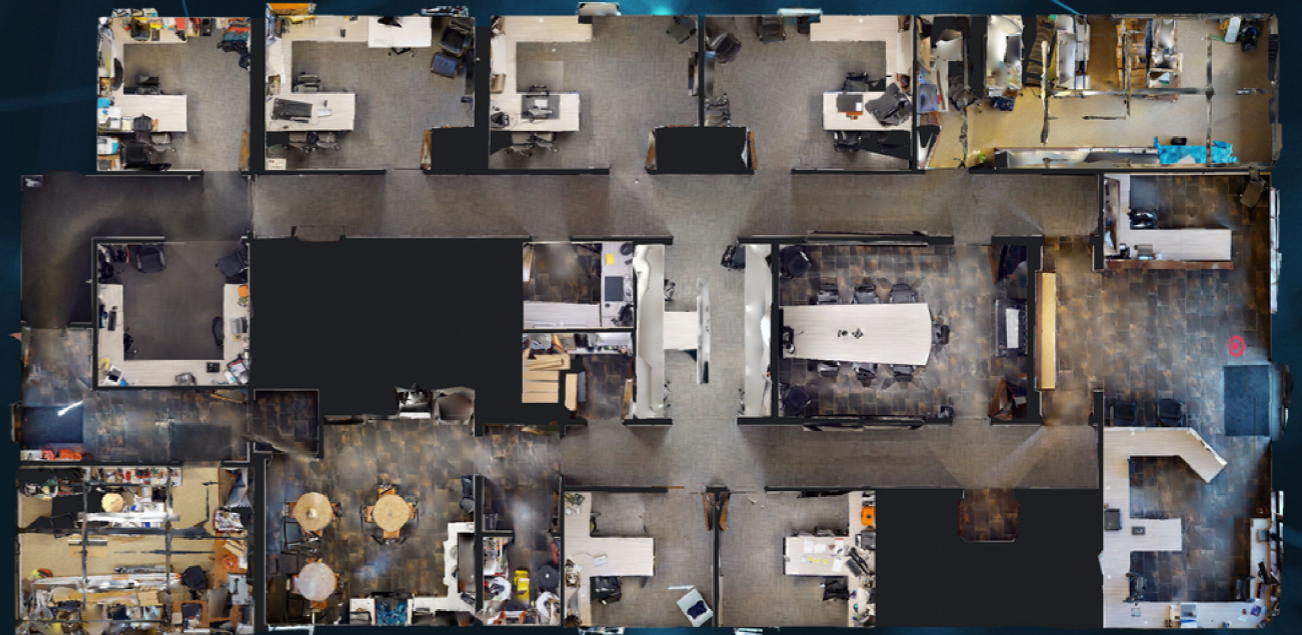

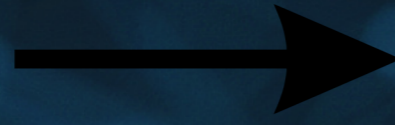

Why APEX360?

APEX360 allows users to self navigate and tour any spaces online, anywhere in the world. This technology will help your business improve its operations through increasing sales and decreasing costs. Additionally, the APEX360 team will work with you to edit and finalize each space based on your companies needs.

Who is APEX360 for?

Whether it is a residential or commercial space, office or home, vacation rental or museum, APEX360 will transform your physical space into the digital world. Every industry can benefit from using 3D capture technology in some way. Digital spaces can eliminate travel times, increase customer engagement online, and even grow sales.

Digital + Acquisition + Reality + Capture

The World is going Digital, What are you Waiting For?

*APEX360° offers three different point of views to view spaces, which include first person, doll house, and floor plan view.

Benefits of APEX360

Fully immersive experience from anywhere around the world, at any time.

Fully Immersive Experience

3D spaces allows everybody to experience real world physical spaces in the digital world.

International Reachability

Virtual spaces gives businesses the opportunity to share locations online with anybody around the world.

24/7/365 Access

Virtual spaces can be accessed at any time and at any day of the year, regardless of work hours and holidays.

Increase Site Visits

Having virtual visits allows more new and potential customers to visit a site when it is available online.

Multiple Point of Views

APEX360 offers three different views for 3D spaces to allow every space to be seen in its full potential.

Data Analytics

3D spaces offers real-time data analytics to track and discover trends of who is looking at your virtual space.

Virtual Access on All Devices

Virtual spaces all users to view the space on any devices with an internet connection, which provides an easy and effective way to view buildings.

Eliminate Travel Time/Costs

Viewing virtual spaces online eliminates the need for visiting sites in person and going back to locations multiple times, which saves time and money.

Competitive Advantage

Having virtual spaces puts your business above others and differentiates you from everybody else, which stands out to potential clients.

Customizable Spaces

APEX360's team will work with clients to edit and customize spaces based on a clients needs. Spaces can contain pictures, videos, descriptions, tags, walkthroughs, and more.

APEX360 Features

Every virtual space comes with a set of features to use when viewing the building. Users can add notes, take measurements, share the space, and more.

Increase Customer Engagement

Current and new customer are more likely to engage with virtual spaces online, due to the ability to view and comment on them at their own time.

APEX360 Process and Timeline

Research

Our team will first travel to your site/building to review and plan out the best method of capturing your space. We will also meet with your team to discuss the location and everything you need scanned.

Capture

After walking through the site and discussing everything that needs to be scanned, our 3D Capture Technician will visit the site and scan the location. The time it takes to capture an entire space will depend on the size of the location.

Develop and Design

Once a space is captured, it will be uploaded to the cloud for the rest of our team to work on. Our team will then work with you to customize and edit your space based on your needs.

Share

The finished space will then be released to the public and shared to your team. Finished spaces can be accessed and viewed by anybody with a shareable link.

Advance Results with Digital Spaces.

Increase sales by 14%

3D spaces inspire more customers and potential clients to visit your property.

Decrease travel time and costs by 50%

Virtual spaces remove the need for site visits.

Work faster by 30%

3D spaces lead to less time needed to complete projects when teams can access a property anytime and from anywhere.

Reduce carbon emissions by 16%

Virtual spaces eliminates the need for car or plane travel to view a property or location.
