

GALAXY AUTOMOTIVE

COMES STANDARD WITH HEAT!

Nothing beats these machines for getting at deeply imbedded dirt and grime in auto upholstery and carpet and removing it for good! The winning combination is lots of heat plus high-performance vacuums for squeaky-clean interiors and faster drying time. Our automotive model is a single-cord unit with a powerful yet low amp 3-stage vacuum. Our Galaxy Automotive comes standard with our exclusive Heat 'N' Run external heater that makes repairs a snap and keeps heat away from the motor chamber, extending the life of the internal parts. The heater can be removed in about 15 seconds if need be, and the unit cleans with or without heat. The Galaxy Automotive is a large 12 gallon capacity inside a compact body for exceptional portability. Comes complete with a vacuum and solution hose assembly designed specifically for automotive detailing and a stainless steel auto-detailing tool.

FEATURES

- 1000 watt in-line external heater delivering up to 170 degrees in just 90 seconds.
- Durable stainless steel heating chamber and heating element.
- Exclusive external heating system for easy removal and repair.
- External heater design removes heat from the motor compartment keeping the vacuum motors and pump running cooler.
- Opens quickly like a clamshell for easy servicing.
- Powerful and lightweight – ideal for single operators.
- “No drip” motor cavity guarantees water spilled on the outside of machine stays outside and won’t accumulate in the motor compartment.

OPTIONAL ACCESSORIES

- 1038AC Stainless steel crevice tool
- 1035AC Stainless steel van tool
- 1039AC Stainless steel detailer tool

MODELS

- 3139BX-EH** 12 gal., 1000w heater, 15-ft. hose assembly, 1039AC detailing tool

SPECIFICATIONS

Solution Tank	12 gallon
