In 2019, there was 1838 opioid medications either administered or prescribed. In 2020, there were 1788 opioid medication either administered or prescribed. These totals are for the entire hospital.

Prioritized Community Health Needs

Three priority community health needs were chosen:

Priority 1: Behavioral Health

Priority 2: Poverty

Priority 3: Opioids

The individuals who participated in the prioritization process believe that by concentrating on these three priorities, many of the other issues identified by key stakeholders and the community will also be addressed. Goals, potential strategies, and community partners for each of the three priority community health needs were identified.

Priority 1: Behavioral Health

Goal:

More access to Behavioral Health Services and Prevention

Potential Strategies:

1. Expand access to mental health counselors through recruitment and retention for practices and possible telemedicine program provided for the community.
2. Expand services for children with a variety of behavioral health needs including developmental delays and behavioral issues through the school system.
3. Provide a way for Addiction Severity Index (ASI) to be completed for treatment and a possible funding source.
4. Create more community awareness on suicide, alcohol/drugs/tobacco use and abuse, and mental health crisis.

Partners:

- Hot Springs County Prevention Coalition
- Hot Springs County School District #1
- Wellspring Counseling Center
- Hot Springs County Memorial Hospital
- Law Enforcement
- County Attorney's Office

- Hope Agency
- Wisdom Tree Counseling
- Youth Alternatives Program
- Help Center

Priority 2: Poverty

Goal: Decrease Poverty and Increase Services

Potential Strategies:

1. Educate the community on lower cost preventative services
2. Establish people in the community willing to help with insurance applications.
3. Educate the front line workers with resources.
4. Develop a current list of services.
5. Provide programs to assist with financial empowerment (budgeting and sensible nutrition).

Community Partners:

- Yellowstone Community Assistance Network
- Hope Agency
- Hot Springs County Prevention Coalition
- Hot Springs County School District #1
- Hot Springs County Memorial Hospital
- Department of Family Services
- Help Center
- Hot Springs County Public Health
- Ministerial Alliance
- Law Enforcement
- River of Life Fellowship (Commodities)
- Hot Springs County Senior Center
- Messiah's Mall

Priority 3: Opioid Crisis

Goal: Decrease opioid use in the community and educate

Potential Strategies:

1. Red Rock Family Practice closely monitor the pain contracts.
2. Red Rock Family Practice and Hot Springs County Memorial Hospital complete education on every patient with opioids.
3. Education to be completed within the school district.
4. Medication Assistance Treatment Program (MOU signed with Cody Regional Health) Partners will be: Wellspring Counseling Center, RRFPP, and Vicklund Pharmacy

Partners:

- Hot Springs County Prevention Coalition
- Red Rock Family Practice
- Hot Springs County Memorial Hospital
- Hot Springs County School District #1
- Wellspring Counseling Center
- Law Enforcement
- Thermopolis Rehabilitation and Wellness
- Wyoming Pioneer Home
- Hot Springs County Senior Center
- Wisdom Tree Counseling Services
- Hope Agency
- Gotsche Rehabilitation and Wellness
- Youth Alternatives Program
- Help Center

Priority Services and Programs

In addition to the community health priorities that were identified, HSCD is committed to expanding services provided to the community. The services listed below are either in process or are currently being evaluated:

1. Hot Springs County Prevention Coalition
2. Outpatient treatment and/or groups for addictions
3. Key people in the community to assist with applications
4. Recruit more mental health counselors
5. Expand transportation availability
6. Healthy habits and promoting the importance of a healthy weight

Other Community Health Needs

HSCD will utilize other community health needs and services identified in the CHNA as a resource for future program development.
