

**SP2 Carbon Technology**, located in Los Angeles California, specializes in formulating SP2 Carbon composite additives to provide,

1. Shielding of EMI;
2. Eliminating of ESD;
3. Increasing of conductivity;
4. Fine tuning of the dielectric constant within needed range.

Our mission is to support the composite industry with the formulated SP2 Carbon additives for applications' specific needs.

EMI Shielding Material for Electronics

ESD Protection Material for Storage Tank

Conductive Material for SMC

Dielectric Material for Radome

Conductive Non Woven

Conductive Foam
