# PLEASING TO THE EYE. AND YOUR PROJECT.

## UNIQUE NEW CONSTRUCTION FRAME DESIGN

The exterior flange on these accessories are intended for use as indexing and flashing points only. Use of these accessories require that the configuration must be installed and anchored through the jambs as in a typical retrofit application.

### Standard Features:

- Features an indexing flange for **quicker installation**
- Integral Fin design **accommodates flashing**
- Can be routed for J-Channel **AF36 / AF38 accessories**
- Simulates exterior **wood casing**
- **Color matched** to window exterior
- Rugged vinyl material is **maintenance free**
