

WINDOW CASING

400 SERIES VINYL WINDOW TRIM PACKAGE

Windows play a major role in the overall look and appearance of a house. The size, geometry and placement of each window are all elements considered when creating window designs for a structure. All these components play a vital role in the overall aesthetic of a building but the proper exterior window trim can add even more curb appeal and excitement to the facade's appearance. Add some character to your windows and take steps to make that house a home.

2-1/2" CASING
SHOWN IN TRADITIONAL STYLE

3-1/2" FLAT CASING
SHOWN IN PICTURE FRAME STYLE

WINCORE[™]
WINDOWS & DOORS
The way it should be.

ENHANCE YOUR HOME'S CURB APPEAL WITH TWO LONG-LASTING CLASSIC AMERICAN TRIM PACKAGES.

For a classic, brick mould trim appearance, opt for the 2-1/2" casing with 908 feature. For a more modern, contemporary impression, choose the 3-1/2" wide casing option. Both designs feature an integral siding channel that accepts 1" siding panels. If the exterior finish of the home does not include siding, an optional channel filler is available.

Traditional style appearance consists of casing on three sides with a classic sill nose. Picture Frame casing utilizes the casing style of your choice on all four sides.

Installation of Wincore windows with the exterior casing trim eliminates time and labor necessary to wrap alternative wood trim and is more cost effective than composite trim.

Factory installed; our casing packages provide a virtually maintenance free window with peace of mind for years to come.

- Never needs painting like wood or composites
- Will not chalk, chip or peel
- Moisture, rot and insect resistant
