The Clean House

Final Electrical Equipment List 01/20/2008

General Responsibility

- The implementation of this lighting design must comply with the most stringent applicable federal and local safety and fire codes. All light plots, drawings, and this equipment list represent design intent and visual concepts only. The lighting designer is unqualified to determine structural appropriateness of this design and will not assume responsibility for improper engineering, construction, handling, or use of the lighting equipment that implements this design.
- Absolutely no substitutions or alterations in materials or methods will be acceptable, unless specifically approved by the designer and production electrician.
- Entire package is to be made ready by supplier and is to include all connectors, cables, controls, frames, etc. so as to comprise a complete working system.

GENERAL NOTES

- All units are to be supplied with appropriate lamp, gel frame, hanging hardware, and safety chain.
- All ellipsoidals are to be aligned.
- All hardware, perishables and cable lengths as per production electrician.
- Spare lamps for all units
