Urology Residency Program

Our Hospital

The Centro Médico Episcopal San Lucas has the following facilities and services:

- Largest Adult and Pediatric Emergency Room in the region
- The San Lucas Cardiovascular Institute has been providing services for more than 48 years and has specialists and subspecialists for the care of your heart
- The only Fetal Medicine Center in the region with a subspecialist in Perinatology
- Accredited Bariatric Medicine and Surgery Clinic with surgery, nursing, social work, nutrition and physical therapy services
- Over 300 physicians with more than 30 specialties and subspecialists
- Over 500 students per semester from various health professions in the St. Luke's Graduate Medical Education Program
- Largest private academic hospital entity in Puerto Rico with 8 Graduate Medical Education programs accredited by the ACGME with 125 Residents and 6 Fellows in Cardiology
- It is the only HUB Hospital in the region certified by the Federal and State Health Departments to attend emergencies in cases of natural disasters or other catastrophes.

Curriculum

This is a five-year Urology Residency Program in which residents have the following experience through training:

- General Surgery
- Surgical Critical Care
