## **Refreshment Package FAQ's:**

**1. Q-I don't drink and would like the refreshment package but my friend/spouse/partner does want the deluxe alcohol package? What can I do?**

**A: You can call Royal Caribbean and explain that you don't drink and they will allow you to purchase one deluxe package and one refreshment. This must be done on the phone (cannot be done online).**

**2. Q- If I buy the refreshment package, do I have to purchase for my kids or anyone else in the cabin?**

**A- No, unlike the deluxe beverage package, you do not have to purchase for everyone in the room. You can just buy one or pick and choose which in your party want it!**

**3. Q: Can my refreshment package be shared?**

**A: No, please note that officially there is no sharing permitted with any drink package, because 1-they may change the policy and require everyone to buy the refreshment if they notice many people are sharing, and 2- In the terms and conditions, they do reserve the right to take your package away with no refund and then you will be charged twice for both the package and any of the drinks you have gotten with the package. It is best just to be honest anyway and either buy a package or pay a la carte!**

**4 Q- How many drinks will I need to have to make the refreshment package worth it? How much are the drinks individually?**

**A: Please see the cost comparison handout for the costs of different types of drinks and examples of paying a la carte vs getting the package at different prices in the pinned posts. But basically, assuming a price of 27.99, its 4 Mocktails a day or 3 Mocktails and 2 bottled waters to break even on the daily cost of the package. Not hard to do at all, when on vacation! Remember your package is unlimited!**

**5. How much money will I save when buying the refreshment package?**

**A- Depends on the price you booked the package, anywhere from 100-200 dollars per person on average, could be more depending on how much you drink! Please see the price comparison handout for examples.**

**6. My cruise isn't for another 8 months but I notice my package is on sale? Should I buy now or wait until later?**

**Don't wait! You should buy when it's on a sale! Even if it's not as low as you hope it will be! Even at a sale price of 26.99-27.99 you can make it worth it and easily even save hundreds of dollars! The reason why you should buy it now, is that way you lock that price in because the price could go up. By buying now, you protect yourself from price increases, and if the price does drop, you can cancel and repurchase for no penalty!**

**7. Is Non-Alcoholic Beer included with the refreshment package?**

**Unfortunately not, it is not included with the refreshment package. While it is listed as nonalcoholic, NA Beer does have trace amounts of alcohol and is still considered a beer so it is therefore not included, it is included in the deluxe package.**

**8. Is starbucks included with my refreshment package?**

**No, the branded Starbucks kiosks is not included but specialty coffee at Café Promenade and Café Lattitudes is! At Café Promenade/Café Lattitudes they serve coffee drinks with starbucks coffee beans, starbucks style drinks and even serve them in a starbucks cup, but it is not the full starbucks menu. Still plenty of delicious coffee options to enjoy with your package!**

## Refreshment Package Price Comparison Guide- Should I buy a la carte or buy the package?

Updated for 2023 and 2024 Cruise Planner Pricing

All prices are USD. Refreshment Package Pricing are subject to change and these are just examples.

For **2023 Cruises**, the onboard or base price is **36 dollars a day (42.48 after gratuity)**.

For **2024 Cruises**, the onboard or base price is **38 dollars a day, (44.84 after gratuity)**.

**It is important to know the onboard or base price because it will affect your sale price for your sailing.**

**Important Tip: It is always a good idea to buy a package as early as possible at a price you are comfortable with since you never know when royal will increase the base price.**

**You can always cancel and repurchase if the price drops later in a future sale but by booking the package you lock in that price and protect from a price increase.**

It is always cheaper to buy the refreshment package before the cruise but it's **best to buy during a cruise planner sale** even if it's not the sale price you wished for.

**Sale price refers to the package price during a cruise planner sale** (this year it has typically been 20% off onboard price) when on sale.

**Regular Price refers to regular pre-cruise pricing (10 % off onboard price) when there is no cruise planner sale.**

**Example 1: 2023 Cruises Sale Price: 27.99** a day (base of 36)

-**33.03** a day with gratuity

-**Total including gratuity for a 7 night cruise- 231.20 per person**

**Example 2: 2023 Cruises Regular Price: 31.99** a day (base of 36)

-**37.75** a day with gratuity

-**Total including gratuity for 7 night cruise- 264.23 per person**

**Example 3: 2024 Cruises Sale Price: 29.99** a day (base of 38)

-**35.39** a day after gratuity

-**Total including gratuity for a 7 night cruise- 247.72 per person**

**Example 4: 2024 Cruises Regular Price- 33.99** a day (base of 38)

-**40.11** a day after gratuity

-**Total including gratuity for a 7 night cruise- 280.76 per person**

**An example of buying drinks a la carte for each day:**

-1 Morning speciality coffee- 4.50 plus 18% grats=**5.31**

-3 Mocktails-7 dollars each plus 18% gratuity,

$8.26 \times 3 =$  **24.78**

-2 glasses of soda-3.50 each plus 18% gratuity=**8.12**

-4 bottled waters-3 dollars each plus 18% grats=**14.16**

**Total cost for the day including gratuity with no package - 52.37**

**Total cost for 7 night cruise buying drinks a la carte with no package- 366.57**

**Savings with the Refreshment Package:**

1. Total savings based on 27.99 a day pricing- **135.39**

2. Total savings based on 29.99 a day pricing- **118.87**

3. Total savings based on 31.99 a day pricing- **102.38**

4. Total savings based on 33.99 a day pricing- **85.83**

These savings are **per person** so depending on the price you bought you have the potential to save **at least 171-402** dollars per couple depending on the price you bought it at (assuming you drank the number of drinks daily in the example above).

**This is just a relatively light drinking example so you could drink way more, try other drinks to see if you like them and save hundreds more vs paying a la carte!**

## Minoru's Master Ingredients List

I've browsed through the bar menus and came up with this list! As long as they have the ingredients, they should be able to make any Mocktail! Schooner bar is a good place to order since they have both frozen and non frozen options.

List of possible ingredients to build your own Mocktail with:

### Juices:

Lemon Juice  
Orange Juice

Pineapple Juice  
Lime Juice

Cranberry juice  
Grapefruit Juice

Sodas: (more are available in freestyle coke machines, these are ones available at bar)

Coke  
Diet Coke  
Sprite  
Fanta Orange

Ginger Ale  
Ginger Beer  
Tonic  
Club Soda

Red Bull-Regular, Sugar  
Free, Tropical yellow

### Mixes:

Strawberry mix  
Peach mix  
Bloody Mary Mix

Mango mix  
Wildberry mix

Pina colada mix  
Mojito mix

### Syrups:

Chocolate syrup  
Passion Fruit Syrup  
Grenadine
