

Your annual wellness visit (complete physical) includes a check of your height, weight, bloodwork, and vital signs. You and your care provider will discuss any changes to your health and will work together to create a personal health plan for the year ahead.

Please note, there are certain areas that may not be covered by your insurance provider, Medicare, or a Medicare Managed Care plan. This may require paying a copay or deductible during your annual wellness visit.

Understanding what is covered and what is not covered may help you determine ahead of time which topics you would like to discuss with your doctor.

Important Reminders	•These areas are NOT covered by your insurance during your Annual Wellness visit:
Sick Visits are NOT covered under Annual Wellness visits	• Sick visits. If your time with your doctor involves a discussion of an illness or symptoms, from an infection to abdominal pain, and your doctor recommends care or a treatment plan, you will be charged a copay and/or a deductible.
Chronic Illness visits are NOT covered under Annual Wellness visits	• Chronic illnesses. Your insurance for your annual wellness visit does not cover any discussion, treatment, or prescription of medications for chronic illnesses or conditions, such as high blood pressure, high cholesterol, or diabetes. You will be charged a copay and/or a deductible.

Of course, your care provider will talk with you about any topics you would like during your annual wellness visit. However, if you have a question about what may be covered and what is not, please do not hesitate to ask at the beginning of your visit.

In advance of your appointment, we encourage you to consult with your insurance provider if you have questions or concerns about your coverage.

Our team is here to help you at every step of the process. We are committed to your good health, and we appreciate you choosing Precision Family Medicine for your healthcare needs.
