

During our time working together at Spectrum Reach, I witnessed firsthand the positive impact that Ashley had on our team. Her infectious energy was contagious! She always showed up with a "can-do" attitude and approached every project with an unwavering determination for its success. Ashley is an exceptional team player and I was fortunate to have her collaboration on many complicated digital advertising campaigns. Her insights and recommendations definitely helped drive optimal results for our advertisers.

Account Executive, Spectrum Reach

As a CSM, I relied heavily on Ashley's extensive digital sales knowledge and her recommendations for optimizations, use of budget, product capabilities, and restrictions and my team of Planners and Coordinators did as well. Ashley's collaboration during Account Team Meetings was essential; providing recommendations of products from our vast suite and optimization recommendations for live campaigns and assisting with client-facing recaps. She was also responsible for training both Sales and Support teams on our suite of products and the digital advertising space in general for five DMAs. She supported more than thirty sales professionals from Directors to Account Executives to Sales Assistants with enthusiasm and grace. I'd highly recommend Ashley for any role where she can collaborate.
