

Park Vista Mission Hills

Paint Color Standards

On occasion homeowners may need or want to make minor paint touch-ups on the outside of their units or to homeowner installed structures such as patio covers and trellises. Occasionally homeowners also replace the utility doors on their units or replace garage doors. Exterior doors are the responsibility of the homeowner.

Please contact the Architectural Committee before starting any paint or touch-up job. As paint colors fade over time from the intense desert sun, it may be best to repaint an entire wall rather than touch it up in smaller places.

Below are the Association's paint color standards and codes provided by Vista Paint.

- Main Unit Walls: Rocky Ridge (VP45-16894)
- Garden Walls, Louver Panels: Horsehair Brown (VP45-16893)
- Garage Doors: Appel Gray (VP45-16861)
