

ALISO VILLAS
CONDOMINIUM ASSOCIATION

POLICY FOR GATE PATH IMPROVEMENT

Approved May 2, 2018

Gate Paths must be completed in a uniform installation of pavers, stepping stones OR a concrete pad, per unit. Installation must be flush with the ground to avoid trip hazards. The path may not extend beyond the width of the gate. Homeowner is responsible to ensure the gate path is kept clear of weeds and/or debris and is maintained in good condition. The Architectural Application must specify the following:

1. The size of the paver OR the size of the concrete pad.
2. Color of the paver (if pavers are being used).
3. Type of installation of the pavers OR the dimension of the concrete pad in the gate path area.
