Club run 17th July

Bob Pritchard was originally going to take us to the Tram Museum but on making enquiries it was found to be too expensive so a run was organized to go North but owing to the weather forecast it was decided to only go to the Matthew Flinder rest area at Beerburum. This was a sausage sizzle on the club. Chris brought his huge BBQ on the back of his ute and while he fired up the Barbie, we held the quick meeting.

It was a very relaxing and enjoyable run and everyone got stuck into the food. After a great amount of chatter we all headed home. I think our keenest

members would have to be Stan and Jenny who come down from Kilcoy for every run.

Thank you to Bob and Chris for a great day.

August 21st run report

It's great to see new members organizing a run as so often it fall to the same old ones.

This months run was organized by Col and Shontay to Mary Cairncross Park in Maleny. As usual we all met at the regular Place and to everyones surprise there was a bright shiny red 83 Ferrari parked in with our lot. It was Rd Robertsons new toy and everyone gave it a good going over. It was also good to see the Repocholis back with us, and their visitors. Col and Shontay also had their daughter and her partner with them. Good roll up today.

We left by the back way and out past the old swimming pool and making our way through the back roads and eventually coming out on Steve Irwin Way to our morning smoko at Landsborough. While there having our coffees a new member Jeff Trevan (who lives in Landsborough) joined us with his father-in-law Don.

We then continued on up the range to Mary Cairncross. Greg and Yvonne joined us here and we got down to some serious socialising.

There were a couple of older men at the next gazebo with a guitar having a little quiet sing-along.

We all started to wander off after lunch back down the range to home.

Thanks Col and Shontay for a great effort on your first run.

Smile a While

Spanish Computer

A Spanish language teacher was explaining to her class that in Spanish, unlike English, nouns are designated as either masculine or feminine.

“House” for instance, is feminine: “la casa.”

“Pencil,” however, is masculine: “el _eali.”

A student asked, “What gender is ‘Computer’?”

Instead of giving the answer, the teacher divided the class into two groups, Male and Female,

and asked them to decide for themselves whether “Computer” should be a masculine or a feminine noun.

Each group was asked to give four reasons for its recommendation.

The men’s group decided that “Computer” should definitely be of the feminine gender (“la computadora”), because:

1. No one but their creator understands their internal logic;
 2. The native language they use to communicate with other computers is incomprehensible to everyone else;
 3. Even the smallest mistakes are stored in long term memory for possible later retrieval;
- and
4. As soon as you make a commitment to one, you find yourself spending half your paycheck to buy accessories for it.

(THIS GETS BETTER!)

The women’s group, however, concluded that computers should be masculine (“el computador”), because:

1. In order to do anything with them, you have to turn them on;
 2. They have a lot of data but still can’t think for themselves;
 3. They are supposed to help you solve problems, but half the time they ARE the problem;
- and
4. As soon as you commit to one, you realize that if you had waited a little longer, you could have got a better model.

The women won.

William

A woman in a supermarket is following a grandfather and his badly behaved 3-year-old grandson.

It's obvious to her that he has his hands full with the child screaming for sweets in the sweet aisle, biscuits in the biscuit aisle, and for fruit, cereal and pop in the other aisles.

Meanwhile, Gramps is working his way around, saying in a controlled voice, "Easy, William, we won't be long . . . Easy, boy."

Another outburst, and she hears the granddad calmly say, "It's okay, William, just a couple more minutes and we'll be out of here. Hang in there, boy."

At the checkout, the little terror is throwing items out of the cart, and Gramps says again in a controlled voice, "William, William, relax buddy, don't get upset. We'll be home in five minutes; stay cool, William."

Very impressed, the woman goes outside where the grandfather is loading his groceries and the boy into the car.

She said to the elderly gentleman, "It's none of my business, but you were amazing in there. I don't know how you did it. That whole time, you kept your composure, and no matter how loud and disruptive he got, you just calmly kept saying things would be okay. William is very lucky to have you as his grandpa."

"Thanks, lady," said the grandfather, "but I'm William, - The little bastard's name is Kevin."

Think you are smart? think again.

Are you the weakest link? Below are four (4) questions. You have to answer them instantly. You can't take your time, answer all of them immediately. OK? Let's find out just how clever you really are.

First Question:

You are participating in a race. You overtake the second person. What position are you in?

Answer: If you answered that you are first, then you are absolutely wrong! If you overtake the second person and you take his place, you are second!

Try not to screw up in the next question.

To answer the second question, don't take as much time as you took for the first question.

Second Question: If you overtake the last person, then you are...?

Answer: If you answered that you are second to last, then you are wrong again. Tell me, how can you overtake the LAST person?!

You're not very good at this are you?

Third Question: Very tricky math! Note: This must be done in your head only. Do NOT use paper and pencil or a calculator. Try it.

Take 1000 and add 40 to it. Now add another 1000. Now add 30. Add another 1000. Now add 20. Now add another 1000. Now add 10. What is the total?

Did you get 5000? The correct answer is actually 4100.

Don't believe it? Check with your calculator! Today is definitely not your day.

Maybe you will get the last question right?

Mary's father has five daughters: 1. Nana, 2. Nene, 3. Nini, 4. Nono. What is the name of the fifth daughter?

Answer: Nunu?

NO! Of course not. Her name is Mary. Read the question again

A get well wish goes out to anyone not feeling up to scratch.

Happy birthday to all.
