## **SUBARU LEVORG VN5 CB18 1.8L TURBO - PRODUCT SELECTION**

Many of the products in this catalogue also fit the other recent Subaru models therefore each part will have a model identifier to show the different models they fit.

2020/12 + SUBARU LEVORG **VN5** /SPORTS WAGON

2023/12 + SUBARU LAYBACK **VN5** /SPORTS WAGON

2020/9 + SUBARU FORESTER **SK5** /SPORTS WAGON

2021/11 + SUBARU LEGACY **BT5** / SPORTS WAGON

2021/10 + SUBARU OUTBACK **BT5** / SPORTS WAGON

AVO Turboworld Parts List for Levorg VN5 1.8L Turbo

<b>Part Number</b>	<b>Description</b>	<b>Page</b>
<u>S7W20C94A***T</u>	Top Mount Intercooler	3
<u>S7W20C413001T</u>	Turbo Air Inlet Pipe	4
<u>S7W20C9EASSPT</u>	Turbo Discharge Pipe	5
<u>S7W20C41A***T</u>	Silicone Air Inlet Hose	6
<u>S7W20C9B0***T</u>	Silicone Throttle Hose	7
<u>S7W20C0YA***T</u>	Silicone Radiator Hose Set	8
<u>S7W20C0Y4***T</u>	Radiator Shroud	9
<u>S7W20C0G4***T</u>	Engine Belt Cover	10
<u>S7W20C8E4***T</u>	Front Fender Inner Cover	11
<u>S2V18F4VA001J</u>	Flat Panel Air Filter	12
<u>MAPADAPT-CB18</u>	Pressure Sensor Adaptor	12
<u>S7W20M3MA065T</u>	2.5in Center Pipe Exhaust	13
<u>S2D22M3MA076T</u>	3.0in Center Pipe Exhaust	14
<u>S7W20E1GU320J</u>	Adjustable Stabilizer Link - Front	15
<u>S2C07G1HUB01J</u>	Adjustable Stabilizer Link - Rear	15
<u>S7W1581GV0**T</u>	Stabilizer Bush - Front	16
<u>S2V1881HV0 **T</u>	Stabilizer Bush - Rear	16
<u>SUX9291KV000J</u>	Stabilizer Bar Stopper	17
<u>S2C08G1GV057T</u>	Front Lower Arm Bush - Front	17
<u>S1X03E1GV002T</u>	Front Lower Arm Bush - Rear	18
<u>S1X03E1GV001T</u>	Front Lower Arm Bush - Rear - Offset	18
<u>S7W1581GNTMPT</u>	Rear Diff Mount Bush - Front	19
<u>S7W1581HNTMPT</u>	Rear Diff Mount Bush - Rear	19
<u>S7W1581KNDMBT</u>	Rear Sub Member Mount Bush	20
<u>S6Z12E1HXARM</u>	Adjustable Lower Arm - Rear	20

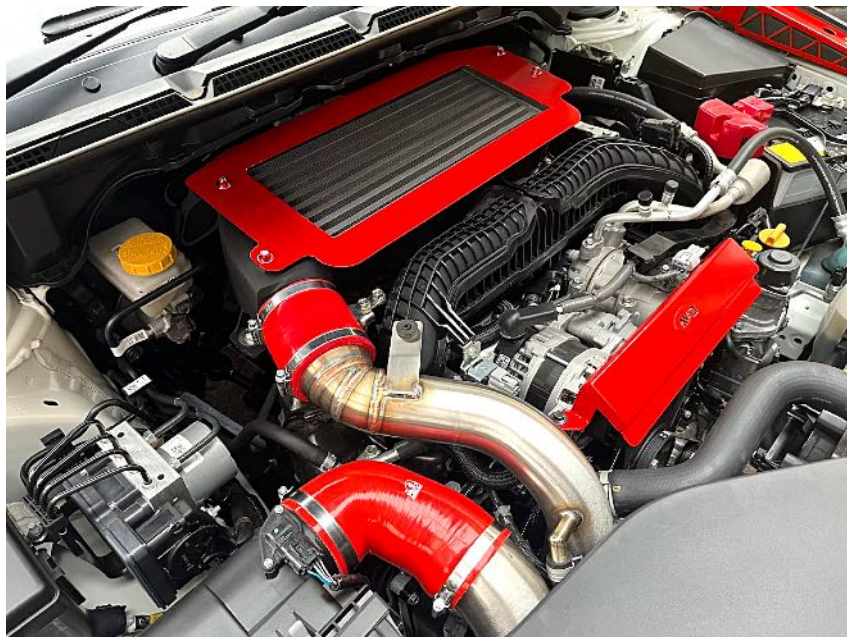

## Top Mount Intercooler

(VN5, SK5, BT5)

Part Numbers: S7W20C94AREDT  
S7W20C94ABLKT  
S7W20C94ABLUT  
S7W20C94AORGT

11832 / 4582459079289  
11833 / 4582459079296  
11834 / 4582459079302  
11835 / 4582459079319

Improved airflow and cooler intake air temperature is the first step to better performance and throttle response, our top mount intercooler offers greater flow volume and better cooling efficiency than the OEM part and with a choice of colors looks great as well.

Turbo Air Inlet Pipe

(VN5, SK5, BT5)

Part Number: S7W20C413001T

11853 / 4582459079326

Get more air into the turbo with our stainless inlet pipe and you will get much Improved throttle response.

## Turbo Discharge Pipe

(VN5, SK5, BT5)

Part Number: S7W20C9EASSPT

11837 / 4582459079333

Stainless steel with gentle curves for improved airflow plus the strength to maintain it's shape under any boost level equals better performance.

## Silicone Air Inlet Hose

(VN5, SK5, BT5)

Part Numbers: S7W20C41AREDT  
S7W20C41ABLKT  
S7W20C41ABLUT  
S7W20C41AORGT

11813 / 4582459077926  
11814 / 4582459077933  
11815 / 4582459077940  
11816 / 4582459077957

Hi strength 5 ply silicone hose with a smooth curve for improved airflow out of the air-box to deliver more air to the turbo inlet pipe.

## Silicone Throttle Hose

(VN5, SK5, BT5)

Part Numbers: S7W20C9B0REDT  
S7W20C9B0ORGT  
S7W20C9B0BLUT  
S7W20C9B0BLKT

11822 / 4582459079241  
11823 / 4582459079272  
11821 / 4582459079265  
11820 / 4582459079258

Hi strength 5 ply silicone hose with a smooth curve for improved airflow out of the OEM intercooler to the throttle valve resulting in improved accelerator response.

## Silicone Radiator Hose Set

(VN5, SK5, BT5)

Part Numbers: S7W20C0YAREDT  
S7W20C0YABLKT  
S7W20C0YABLUT

11843 / 4582459079555  
11841 / 4582459079548  
11842 / 4582459079531

Hi strength 5 ply silicone hose with in a range of colors to enhance your aesthetic.

## Radiator Shroud

(VN5)

Part Numbers: S7W20C0Y4REDT  
S7W20C0Y4BLKT  
S7W20C0Y4BLUT  
S7W20C0Y4ORGT

11849 / 4582459079869  
11869 / 4582459079876  
11870 / 4582459079883  
11871 / 4582459079890

The AVO Turboworld radiator shroud is easy to instal and a nice addition to dress up the engine room. There are 4 colors to choose from to compliment our other parts.

## Engine Belt Cover

(VN5, SK5, BT5)

Part Numbers: S7W20C0G4REDT  
S7W20C0G4BLKT  
S7W20C0G4BLUT  
S7W20C0G4ORGT

11824 / 4582459077889  
11826 / 4582459077896  
11825 / 4582459077902  
11827 / 4582459077919

The AVO Turboworld engine belt cover makes it easy to dress up the engine bay with a simple installation method. There are 4 colors to choose from.

Front Fender Inner Cover

(VN5)

Part Numbers: S7W20C8E4REDT.  
S7W20C8E4BLKT  
S7W20C8E4BLUT  
S7W20C8E4ORGT

11836 / 4582459079494  
11846 / 4582459079500  
11847 / 4582459079517  
11848 / 4582459079524

The AVO Turboworld inner fender cover gives a cohesive appearance to the engine bay when fitted with our other color matched accessories. There are 4 colors to choose from.

Flat Panel Air Filter

(VN5, SK5, BT5)

Part Number: S2V18F4VA001J

11629 / 4582459078732

It is a filter with a low pressure loss compared to the original one by partitioning special fibers with stainless steel mesh and it is a type that can be cleaned if it gets dirty.

## Pressure Sensor Adaptor - Intake Manifold

(VN5, SK5, BT5)

Part Number: MAPADAPT-CB18

11840 / 4582459079852

It is convenient to use to pass the vacuum line through turbochargers, superchargers, and boost meters.

2.5in Center Pipe Exhaust

(VN5, SK5, BT5)

Part Number: S7W20M3MA065T

11903 / 4582459079722

Our Hi-flow center pipe exhaust system improves gas flow and accentuates the classic boxer engine sound. Fits to the OEM front pipe and mufflers.

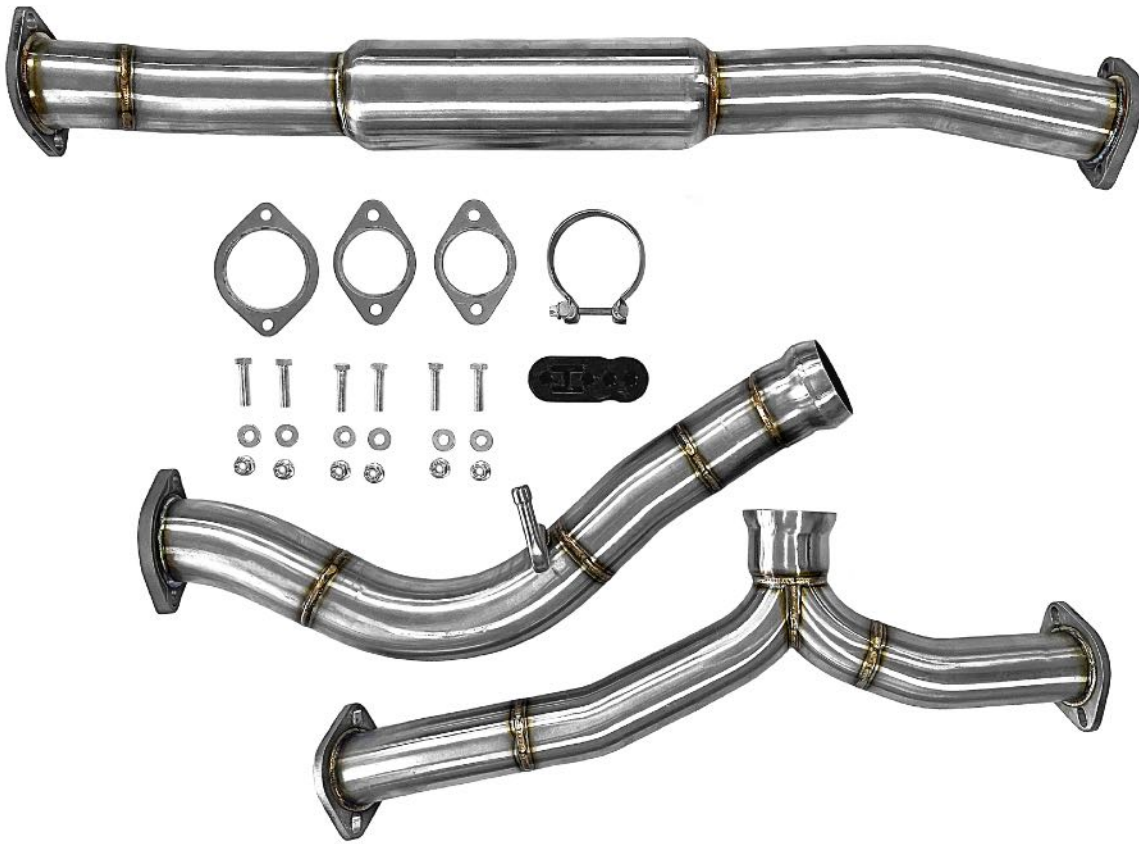

3.0in Center Pipe Exhaust

(VN5)

Part Number: S2D22M3MA076T

11876 / 4582459079715

Looking for an even more aggressive exhaust sound, our Hi-flow 3.0in center pipe kit offers even better flow and more sound. Fits to the OEM front pipe and mufflers.

Adjustable Stabilizer Link - Front

(VN5, BT5)

Part Number: S7W20E1GU320J

11908 / 4582459079913

AVO Stabilizer Links offer improved positioning and operation of the stabilizer bar and results in more reliable operation and therefore more accurate feel when cornering.

Adjustable Stabilizer Link - Rear

(VN5, BT5)

Part Number: S2C07G1HUB01J

11889 / 4582459078657

AVO Stabilizer Links offer improved positioning and operation of the stabilizer bar and results in more reliable operation and therefore more accurate feel when cornering.

Stabilizer Bush - Front

(VN5, SK5, BT5)

Part Numbers: S7W1581GV023T

11682 / 4582459079067

S7W1581GV026T

11688 / 4582459079098

AVO Stabilizer Bushes are manufactured from PU which offers greater rigidity compared to the rubber originals and improves operation of the stabilizer bar.

Stabilizer Bush - Rear

(VN5, SK5, BT5)

Part Numbers: S2V1881HV018T

11685 / 4582459079128

S2V1881HV021T

11904 / 4582459079906

AVO Stabilizer Bushes are manufactured from PU which offers greater rigidity compared to the rubber originals and improves operation of the stabilizer bar.

### Stabilizer Bar Stopper

Part Number: SUX9291KV000J

(VN5, SK5, BT5)

11686 / 4582459075793

It is a bush stopper that does not allow the stabilizer bar to slide too much so that the stabilizer itself does not swing from side to side reducing its efficiency.

### Front Lower Arm Bush - Front

Part Number: S2C08G1GV057T

(VN5, SK5, BT5)

11167 / 4582459073621

Replace the front side bush of the front lower arm with our polyurethane bush, and enjoy smoother lower arm operation.

Front Lower Arm Bush - Rear

(VN5, SK5)

Part Number: S1X03E1GV002T

11053 / 4582459072358

By replacing the original rubber bush on the rear side of the front lower arm with our polyurethane bush, you will gain improved steering response.

Front Lower Arm Bush - Rear - Offset Type

(VN5, SK5)

Part Number: S1X03E1GV001T

11028 / 4582459072341

Compared to the standard type, the offset type increases the camber angle during cornering and therefore improves the feeling when steering is operated.

Rear Differential Mount Bush - Front Side

(VN5, SK5, BT5)

Part Number: S7W1581GNTMPT

11654 / 4582459079050

Reduce the movement of the rear differential during cornering and under strong acceleration and or deceleration for improved tyre contact on the road. For best results the rear side S7W1581HNTMPT also needs to be installed.

Rear Differential Mount Bush - Rear Side

(VN5, SK5, BT5)

Part Number: S7W1581HNTMPT

11656 / 4582459078978

Reduce the movement of the rear differential during cornering and under strong acceleration and or deceleration for improved tyre contact on the road. For best results the front side S7W1581GNTMPT also needs to be installed.

### Rear Sub Member Mount Bush

(VN5)

Part Number: S7W1581KNDMBT

11653 / 4582459079012

With a total of 8 upper and lower subframe bushes that support the rear differential and lower arm to reduce lateral movement during cornering.

### Adjustable Lower Arm - Rear

(VN5, BT5)

Part Number: S6Z12E1HXARM

11905 / 4582459076240

With our adjustable lower arm you can move " $\pm 10$ mm to the in/out side" from the original value which allows precise camber setting on both left & right sides enhancing driving feel.
