Who are we

Afilexion was initially established as a joint venture project between Avviza Advisory and GTG Advocates, to service gaming clients which both our firms had in common. Over time, we realised that whilst both our firms were already amongst the leading mid-tier firms in our respective fields, however our combined expertise and experience, created exponential value for our clients. This gave birth to Afilexion Alliance, a partnership between Avviza Advisory and GTG Advocates, offering one of the most comprehensive advisory and support services portfolio for gaming regulators and law makers, gaming operators, gaming platform providers, affiliates and service providers to the gaming industry.

Afilexion Alliance advises from Tier 1 operators to start-ups, from EU institutions to regulators, from small affiliate set-ups to market leader affiliate management outfits.
