MR. BRAR RAILINGS

HARDWOOD BOX POST

Hardwood Box Posts offer a solid, classic look with rich natural wood grain. Fluted Box Posts feature elegant vertical grooves for a refined, traditional aesthetic perfect for grand staircases.

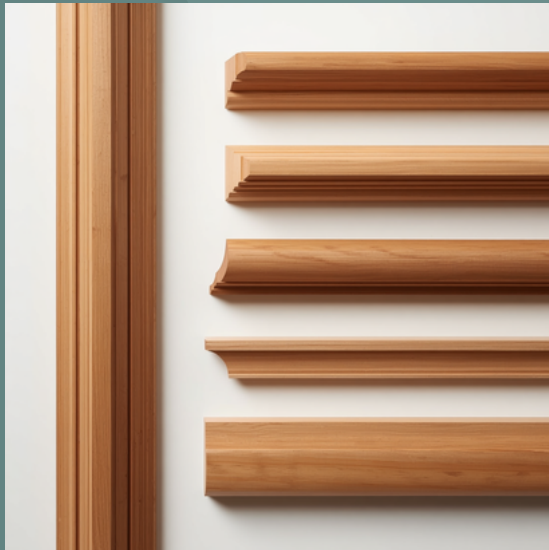

OUR BOX POSTS

Mission Panel Box Posts showcase clean horizontal and vertical lines inspired by craftsman style. Raised Panel Box Posts add depth and dimension with classic raised detailing for a timeless look.

HANDRAILS

FOR MR. BRAR
RAILINGS

SHOE RAIL & SQUARE RAIL

Shoe Rail: A flat bottom rail installed at the base of balusters.

Square Rail: A clean, straight-profile handrail with a classic square cross-section, ideal for modern and traditional staircases.

Our handrail collection includes Shoe Rail, Square Rail, H Rail, W Rail, and D Rail — precision-milled from premium hardwood for lasting beauty and strength.

RAIL PROFILES

H Rail, W Rail & D Rail: Premium hardwood handrail profiles crafted for comfort and style. Each profile offers a distinct grip shape to complement any staircase design.

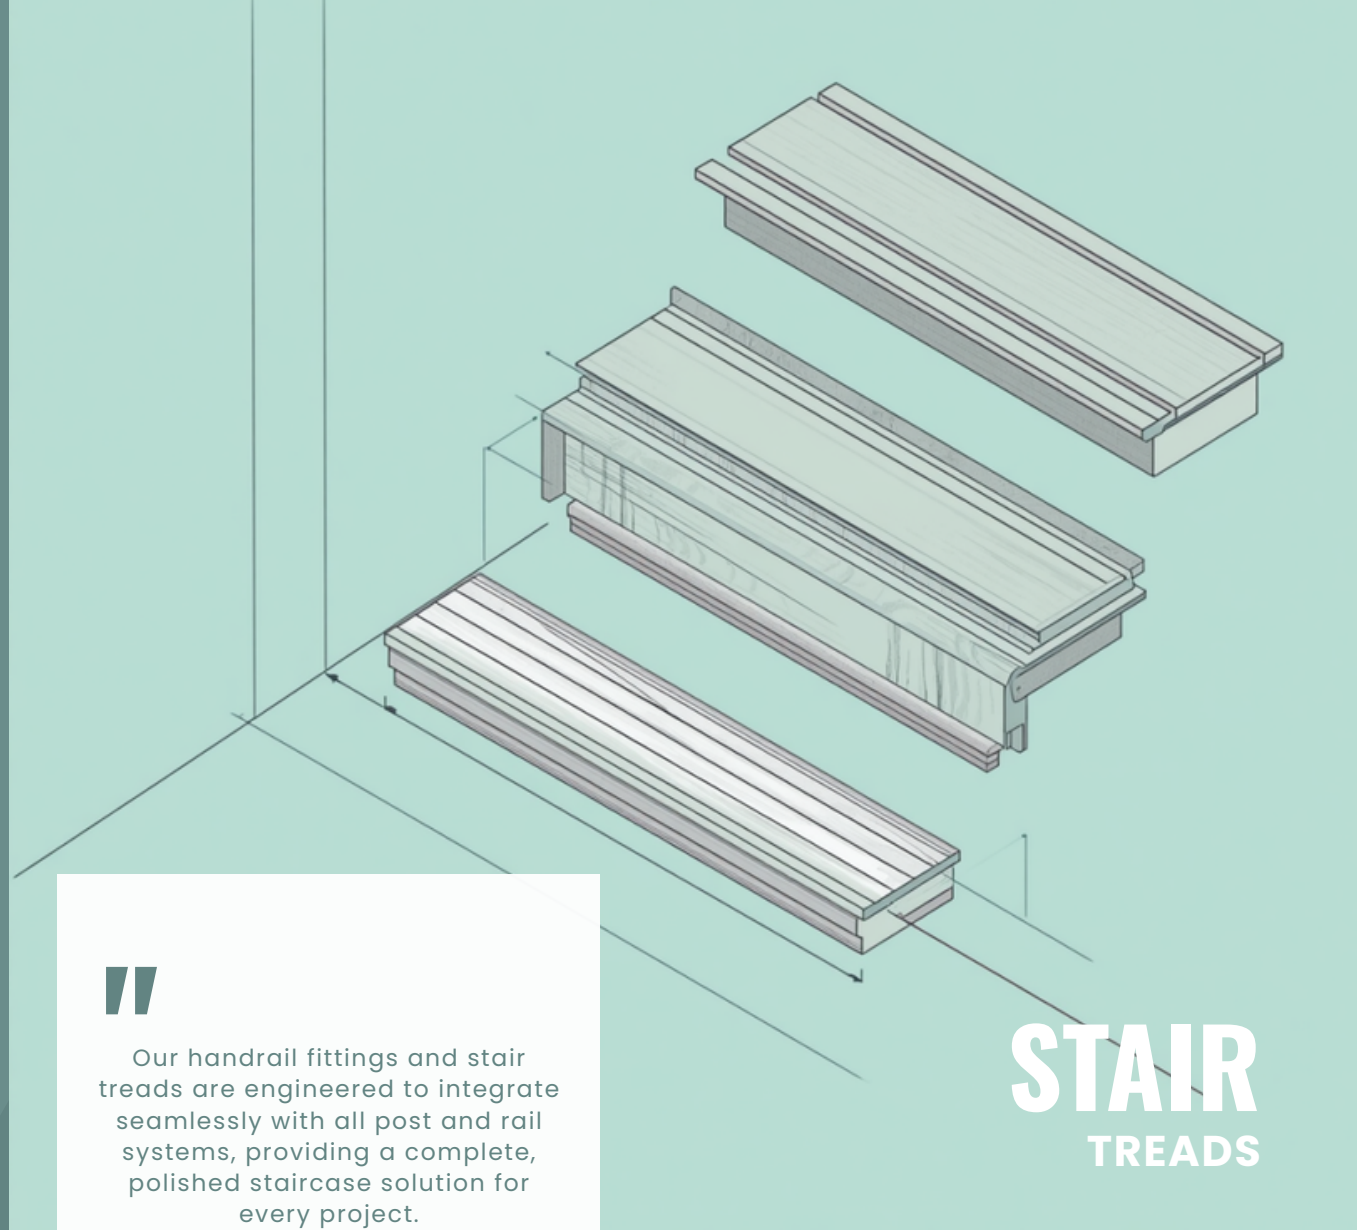

HANDRAIL

FITTINGS & STAIR TREADS

HANDRAIL FITTINGS

Handrail fittings include starting easing, over easing, gooseneck, volute, and cap fittings. These precision-crafted components ensure smooth transitions and elegant curves on stair railings for Mr. Brar Railings.

Stair treads are available in solid hardwood and engineered wood. Each tread is crafted for durability and style, complementing the full railing system with precise dimensions for Mr. Brar Railings.

SOLID WOOD

MOULDINGS

Premium solid wood mouldings crafted for lasting beauty. From classic crown and cove to elegant baseboards, casings, and floor mouldings — our complete collection elevates every interior space.

**WOOD
MOULDINGS**

WALL MOULDINGS

BASEBOARDS

Solid wood baseboards provide a clean, elegant transition between walls and floors. Available in classic ogee, colonial, and craftsman profiles to suit any interior style.

“

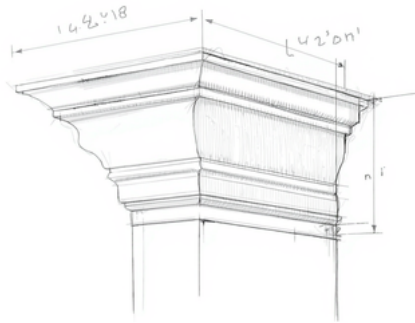

Our solid wood mouldings are crafted from premium hardwood and softwood species. Each profile is precision-milled for seamless installation and a lasting, beautiful result.

”

CASINGS & TRIM

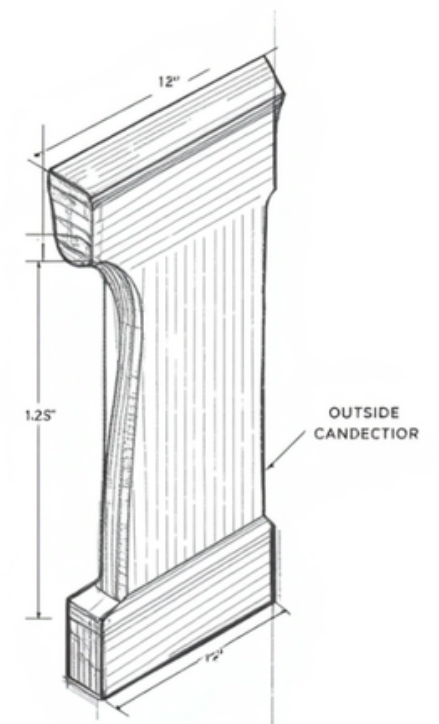

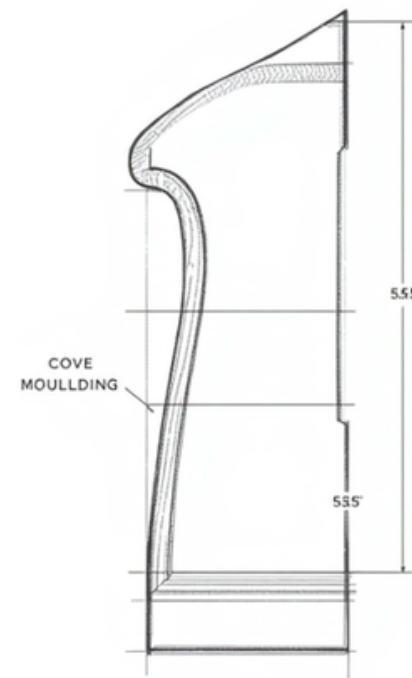

Solid wood door and window casings frame openings with precision-milled profiles. Choose from flat, colonial, or craftsman styles for a refined architectural finish.

CROWN MOULDINGS

CROWN MOULDING

Classic crown moulding installed at the junction of walls and ceilings. Available in solid wood with elegant profiles for a refined, traditional finish.

”

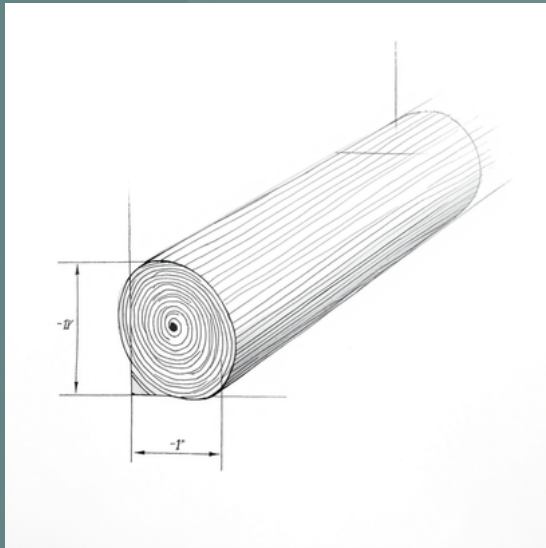

Solid wood crown mouldings add architectural elegance and character to any room. Crafted for precise fitting and long-lasting durability.

”

COVE & OUTSIDE CORNER

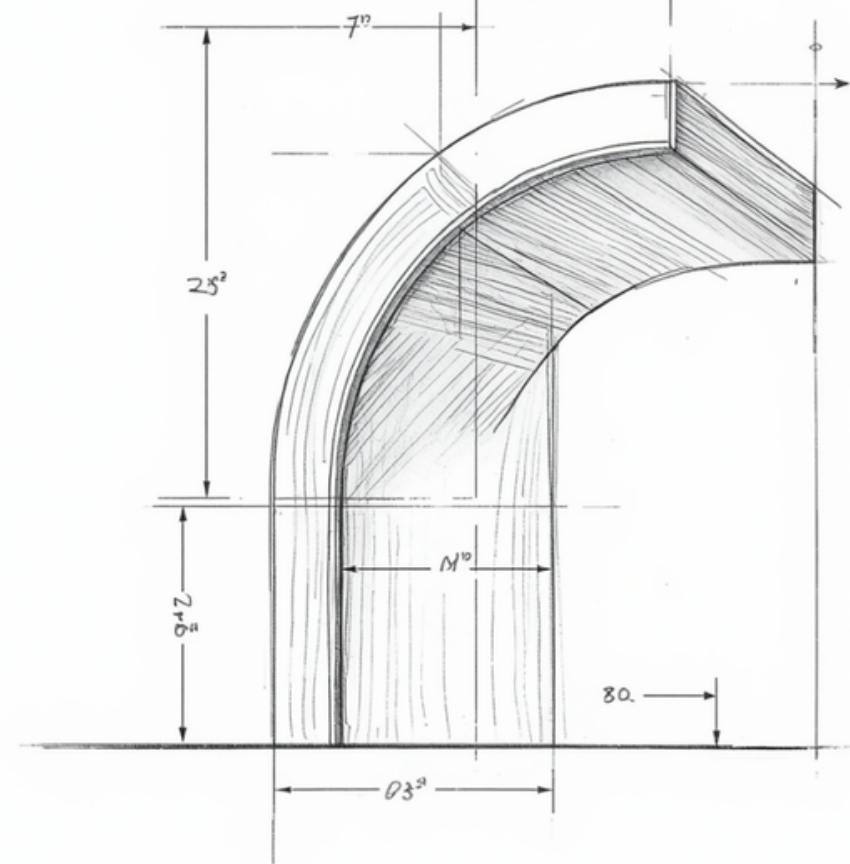

Cove moulding offers a concave profile for ceiling transitions. Outside corner pieces provide clean, sharp finishing at external wall corners in solid wood.

ROUNDS & BAR RAIL

ROUND MOULDING

Rounds are smooth, cylindrical solid wood mouldings used as decorative accents, furniture trim, and architectural detailing. Available in various diameters for versatile applications.

//

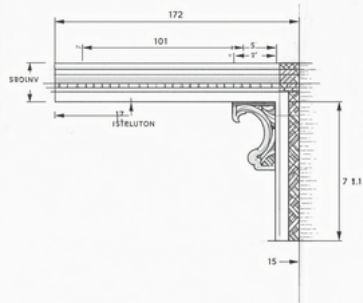

Both Rounds and Bar Rail profiles are available in oak, maple, pine, and cherry. Custom lengths and finishes available to match any interior design scheme.

//

BAR RAIL DETAIL

Bar Rail moulding features a curved, ergonomic profile ideal for bar tops, handrails, and decorative ledges. Crafted from solid hardwood for durability and elegant finish.

WALL PANELING & CHAIR RAIL

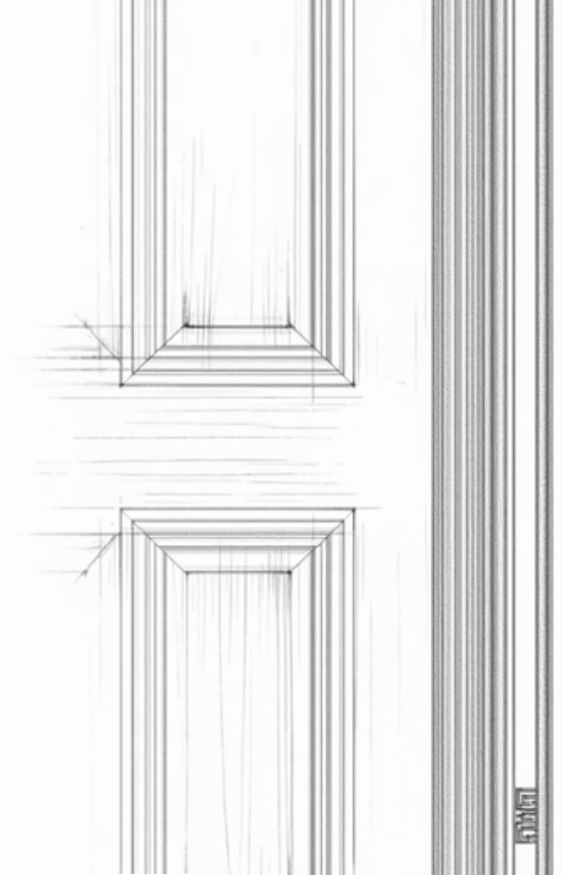

CHAIR RAIL MOULDING

Chair Rail moulding is installed horizontally along the wall, typically 32"–36" from the floor. It protects walls from chair backs while adding elegant architectural detail to any room.

”

Solid wood mouldings crafted for lasting beauty. Wall Paneling and Chair Rail work together to create timeless, elegant wall treatments in any interior setting.

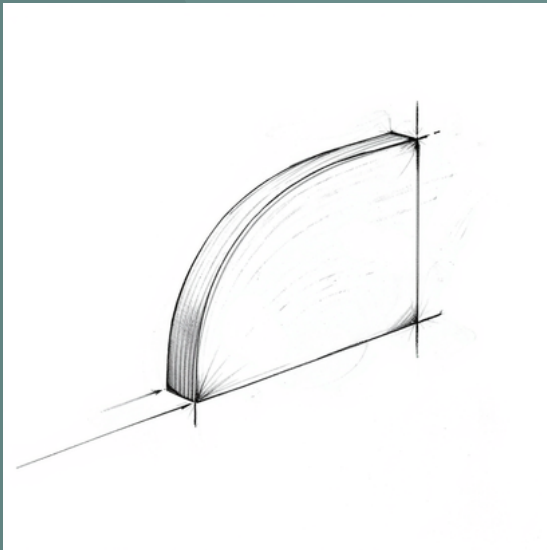

”

WALL PANELING

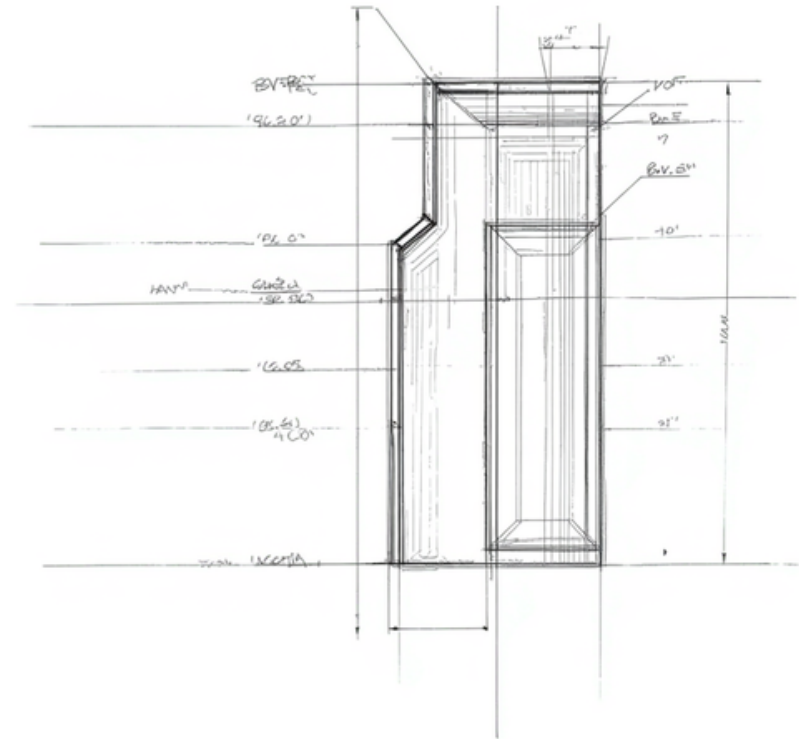

Wall Paneling adds depth, texture, and character to interior spaces. Available in various solid wood profiles, it creates a refined, classic finish for wainscoting and full-wall applications.

BASE SHOE & PANEL MOULDING

BASE SHOE

A small, flexible moulding applied at the base of baseboards to cover gaps between the floor and baseboard. Provides a clean, finished look at floor level.

”

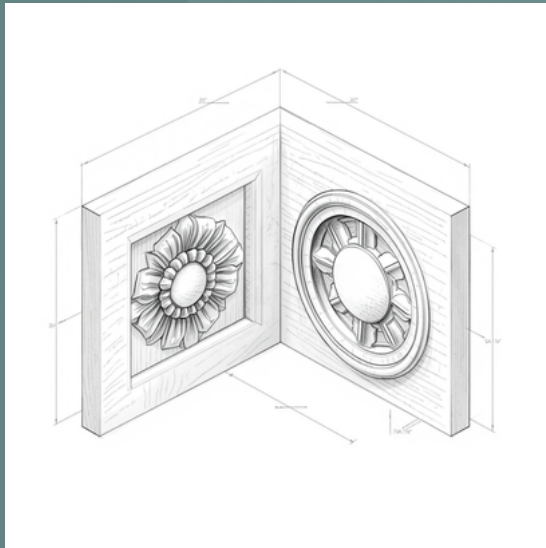

Solid wood base shoe and panel mouldings are crafted for durability and elegance. Available in various profiles to complement any interior style, from traditional to contemporary.

”

PANEL MOULDING

Flat or raised panel moulding used to create decorative wall panels, wainscoting, or furniture accents. Adds depth, texture, and architectural character to walls.

ROSETTES & FLOOR NOSINGS

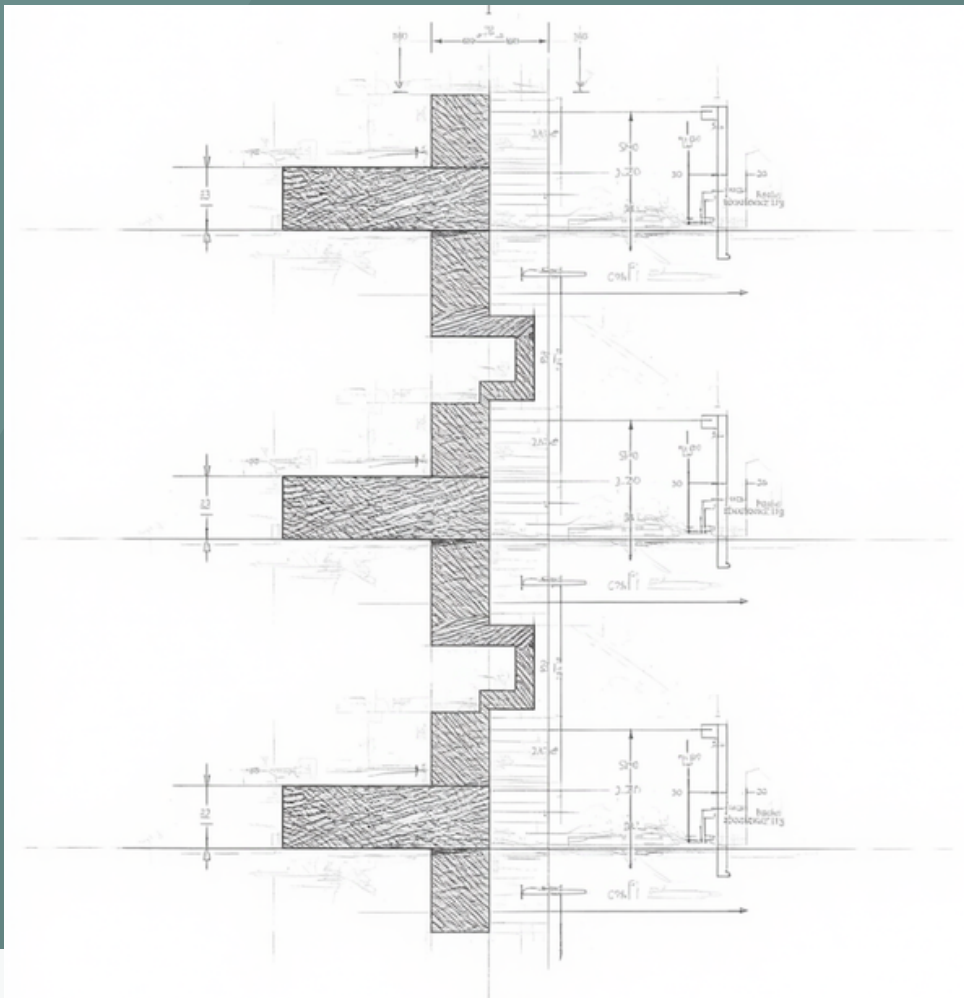

ROSETTE BLOCKS

Solid wood rosettes serve as elegant corner accents for door and window casings. Available in square and round profiles, they add a refined decorative touch to any interior trim installation.

”

Our nosing collection includes square nosings, standard stair nosings, and landing nosings — all milled from premium solid wood to ensure durability and a seamless match with your moulding profile.

”

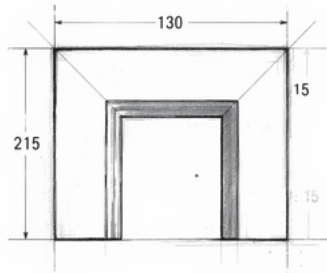

DECORATIVE DETAILS

Floor nosings and stair nosings provide a safe, finished edge for stair treads and floor transitions. Crafted from solid hardwood with precise profiles to match your flooring.

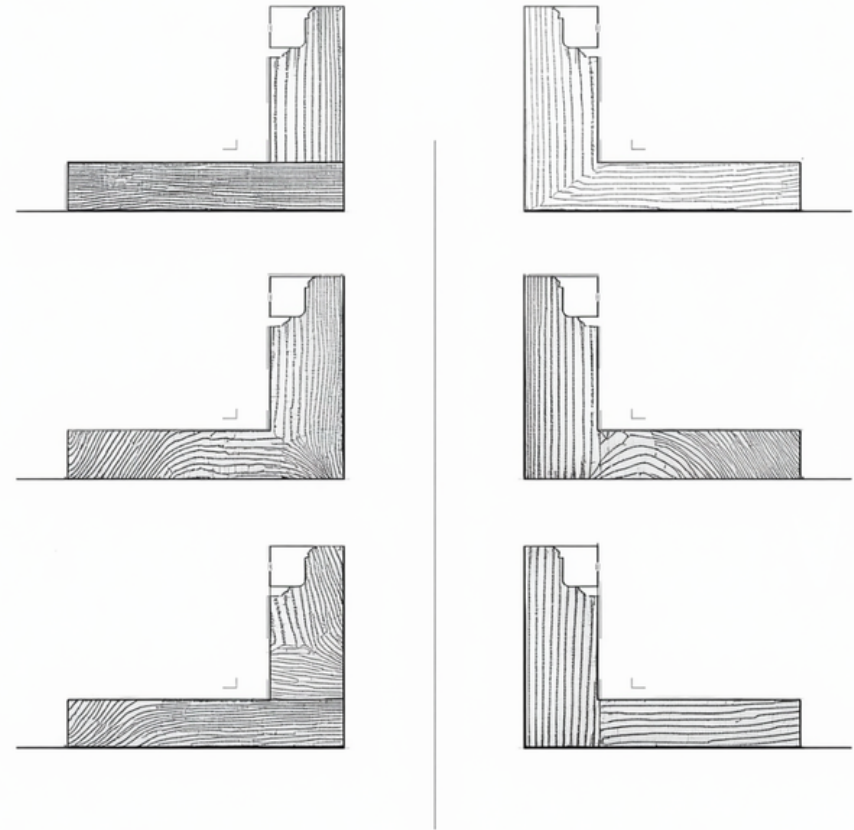

SQUARE

NOSINGS & TRANSITIONS

SQUARE NOSING PROFILE

A square nosing provides a clean, right-angle edge finish at stair treads and floor level changes. Crafted from solid hardwood for durability and a refined look.

Square nosings and transitions are available in oak, maple, walnut, and cherry. Custom lengths and finishes available to match any hardwood floor installation.

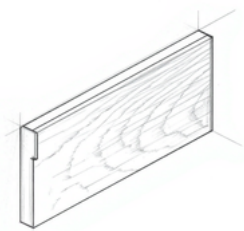

FLOOR

TRANSITIONS

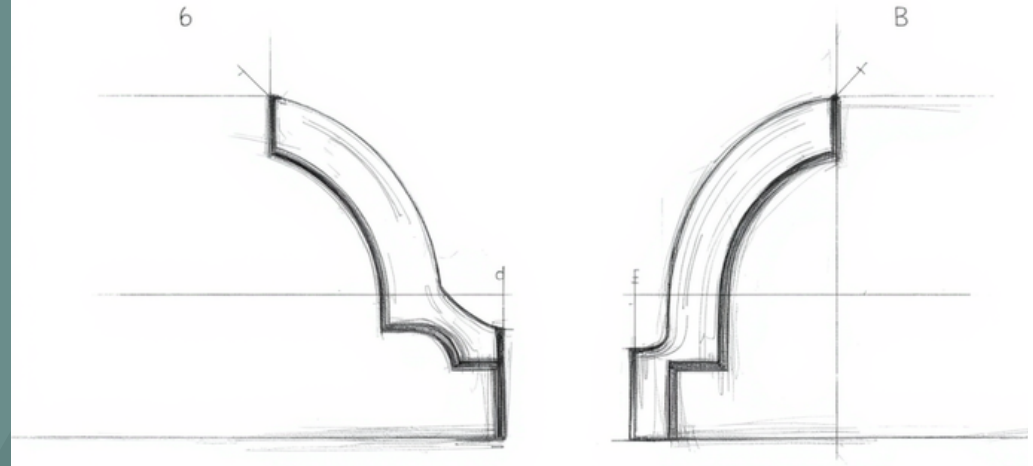

Transition strips bridge two flooring surfaces of equal or varying heights. Solid wood construction ensures a seamless, elegant connection between rooms.

THRESHOLD & END CAP

THRESHOLD PROFILE

Threshold mouldings bridge the gap between two floor surfaces at doorways. Available in solid wood, they provide a smooth, safe transition with a classic beveled profile. Custom widths available.

”

Solid wood doorway and edge finishing solutions — precision-milled Threshold and End Cap profiles designed to complement any hardwood or engineered floor installation beautifully.

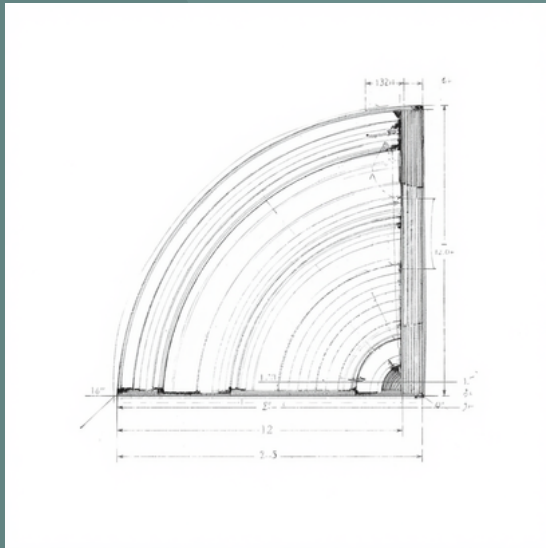

”

END CAP MOULDING

End Cap mouldings finish exposed flooring edges cleanly at walls or sliding doors. Crafted from solid hardwood, they protect and frame floor termination points with a refined, seamless look.

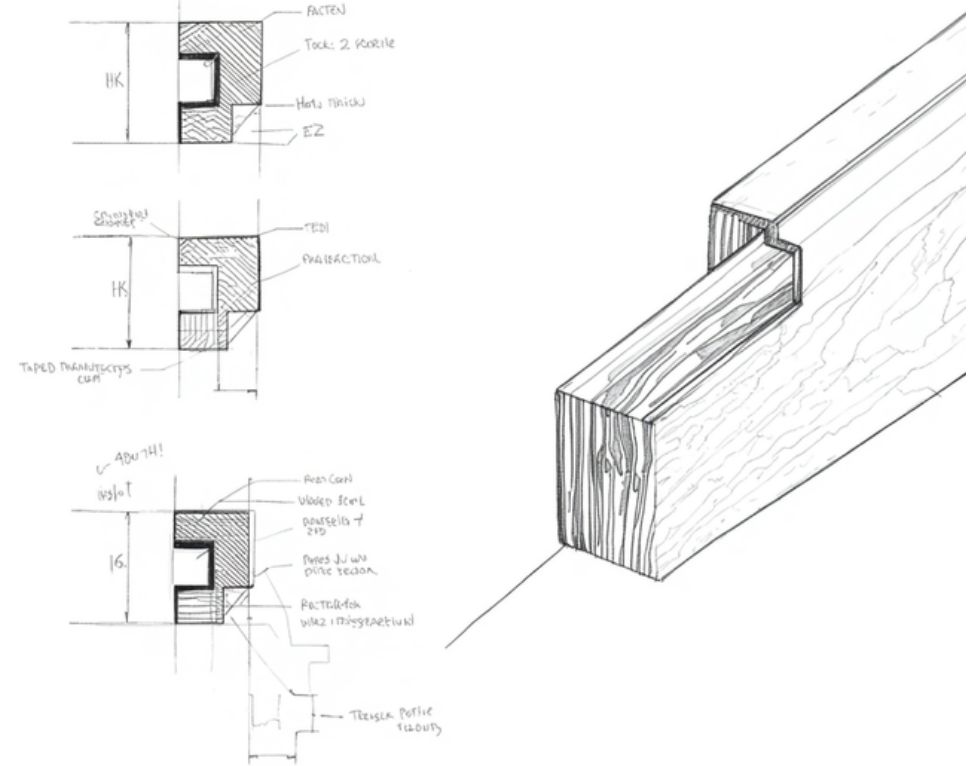

QUARTER

ROUND & REDUCERS

QUARTER ROUND PROFILE

Quarter Round moulding features a curved 90° profile used to cover expansion gaps along baseboards and floor edges. Available in solid hardwood species for a seamless finish.

“

Floor edge profiles available in Oak, Maple, Cherry & Pine. Custom lengths and stain-grade finishes to match any solid wood flooring installation.

”

FLOOR FINISHING

Reducers transition between two floor surfaces of different heights. Solid wood construction provides a smooth, tapered edge profile between flooring materials.
