

Dear friends and SNCC members

My name is Subash Kunwar. Residing in the greater Sacramento region for over two decades. By Profession I'm a BSN RN and employed for California State.

Community engagement is not just volunteering - it is desire to help and support people and community. Two years ago I became silver member of SNCC. My profession as an RN quickly become power of compassion, teamwork, and leadership. I discovered that giving back to the community not only strengthen the community but also give you satisfaction.

I believe in fostering, nurturing a safe welcoming and vibrant community centre where every voice matter. I will bring dedication, transparency and improve our shared space to support one another in times of need.

Thank you for your time and look forward to work together to make a difference.

Sincerely
Subash Kunwar
