

I am Lovila Shrestha, and I am extending my candidacy for the position of Executive Member for our SNCC Community. As a dedicated member of our community, I aim to serve our Nepali friends and families in the Greater Sacramento area with passion, bringing unity among us and honoring our community's values.

I hold a Dental degree and am currently working as a dental hygienist. Through my experience, I have developed strong communication skills and a keen attention to detail. My involvement in SNCC events includes fundraising efforts during the SNCC New Year's Picnic, Teej Celebration gatherings as well as the NAFCA events. I have also had the honor of managing the Maha Puja for the last two years, fostering unity and raising funds for our SNCC Community, while helping to maintain our Nepali culture and heritage here in the United States.

As one of the four women candidates, my perspective is crucial in representing the voices and concerns of women in our community. I aim to provide unique insights into the needs and aspirations of our community's women, as well as all the members in general. I also hope to set an example to our future generation of women to be active in our community and contribute equally.

If elected, I will work tirelessly to support our community's growth, preserve our cultural heritage, and promote unity among all of us, regardless of political or religious affiliations. I humbly request all the voting members for your support for my vision in this election for the position of Executive Member.
