Cougar Camp Where Everything is Popsicle !!

July in Cougar Summer Camp

Welcome to weeks 6-9 of WVCA Cougar Summer Camp. We are enjoying an amazing summer with days filled with activity, friends, and pure summer memory making! If you are new to camp this month, please make sure to review the Summer Camp Welcome Handout that reviews daily activities, what to bring, and more!

We encourage our campers to wear their camp tie dye shirts, or any tie dye shirt on Fridays for our closing rally, and on any walking field trip day. This helps build camp community, as well as support safety and supervision while out on our field trips.

Let's have a wonderful month, and remember to continue to monitor your ProCare accounts to stay connected and informed for an amazing camp experience!

Week 8. Wednesday July 21 Field Trip to Ceciliani Park

We have our second walking field trip to Ceciliani Park scheduled this month. All off-site activities require a walking permission slip. Anyone not participating will need to find alternative care for the day as stated in our *Participation Policy* in our parent handbook.

Walking trips teach our campers the importance of pedestrian safety, responsible conduct in public areas, as well as having fun in our community.

We welcome family volunteers on our trips. All volunteers are responsible for the care of their own camper. This helps us lower our ratios for higher quality supervision of field trips, and encourages family participation without the stress of caring for other's children.

We hope you join us for a day at the park this month.

Please complete the attached Permission Slip and submit to your Cougar Club Staff.

Toys from Home & Electronics on Fridays

Toys from home are welcome daily for free play times. Please limit the amount of toys, and don't bring anything of value. Cougar Club supervise students and monitors to the best of their ability, but are not responsible for lost, broke, stolen, or traded toys. Pokémon Trading Cards are very popular, and students often trade or lose these cards. We have allowed for students in pairs to play Pokémon, but have stopped small groups of Pokémon due to rising conflict.

Electronics are welcome on Fridays. Please make sure to review our Electronic Policy in the Parent Handbook for details. We do not have Wi-Fi Access for students. Only console games, and games stored in device will work on campus.
