PRESCHOOL - 8TH

## Marching into March

WVCA Preschool is marching right along! This month our teaching staff will begin to analyze and reflect upon the Growth Assessment observations and work samples to begin to complete the final Desired Results Developmental Profile (DRDP) of the school year to be sent home with portfolio in April. We are so excited to share how your children have grown since their Baseline Assessment that helped launch the direction of learning in each room. We love hearing how they are showing their growth and development at home too! Please share your milestone observations with your teaching staff this month to be considered in the DRDP.
