WVCA Preschool-8th Grade Reopening Plan February 1, 2021 Update

Dear WVCA Preschool Families,

In January, the California Department of Public Health updated the guidelines approved for school waivers. Beginning in February, all students in Kindergarten through grade twelve, must wear facemasks unless they are medically exempt as confirmed by their physician.

In response to the update, WVCA Preschool confirmed with Community Care Licensing that the Preschool guidance has not been impacted, and face coverings are still considered best practice for children 2 years and up, and will be encouraged as already outlined in our WVCA Preschool COVID-19 Program Policies on our website.

Cougar Club, our licensed child care program has been impacted due to the CDC guidance that all elementary students must wear a face covering while indoors, unless medically exempt, and confirmed with written instruction from their physician. Students will not have to wear face coverings outdoors, or while at meal times.

If you have any questions please contact me at msmith@wvcapreschool.com.

We will continue to monitor for further updates that impact any program policy or operation.

Blessings,

Michele Smith, M.S. Ed. ECE
WVCA Preschool and Cougar Club Director
