

Four Disciplines of Safety

Goal:

- To protect our Workers, the Environment, our Assets, and our Reputation by targeting zero accidents

Leading Measures:

- Training
- Have a good plan, that
- Identifies and mitigates the hazards, and
- Stop Work when something is not right

Performance Expectations:

- Simple, visual, compelling scoreboard that displays and tracks lead measures

Accountability:

- Weekly cadence that looks back at pain points, creates solutions, and applies them moving forward
