EMERGENCY ACTION PLAN

Scope

This Plan covers the designated actions the Company and employees must take to ensure employee safety from fire and other emergencies.

Evacuation

Muster Points

In case of an emergency on this site, all workers must exit away from the emergency and toward the Primary or Secondary muster point.

Primary Muster Point: Access Road; north of office trailers

Secondary Muster Point: Storage Containers; south of plant

Evacuation and Exit Pathway Drawing(s)

For sites that require visual instruction regarding exit routes and emergency muster points, a site emergency evacuation plan drawing shall be developed and attached here:

Drawing Board

Emergency Procedures

Employees and workers who remain in the emergency area to operate critical site functions and/or manage the emergency shall follow the following procedures. If the procedures loose their effectiveness, new procedures shall be developed by using the form [edit] function:

1. Identify the tasks associated with response personnel actions

Note Task and [save] to add additional task

Monday through Friday 8AM-5PM, proceed to Heart of Texas Health System. After hours, proceed to Emergency Dept., Heart of Texas Memorial Hospital. Always call in advance to confirm hours and availability. Always report occupational injuries and illnesses to your foreman and the superintendent. Notify your supervisor of an event and then complete an Incident Report at www.iws.support as soon as possible after the incident. Superintendent – Communicate all incidents and injuries to your PM with follow ups to the GC as necessary to meet the GC’s reporting requirements. Contact safety director, George bunker with questions or for assistance. Keep unauthorized personnel from entering an active emergency.

2. Identify the hazards associated with with the above response personnel tasks

Note Hazard and [save] to add additional hazards

3. Identify the Personal Protective Equipment (PPE) required for response personnel

Note Hazard and [save] to add additional hazards

Always notify response personnel of hazardous conditions, slips/trips/falls, or any other hazards they may encounter when responding to emergency.

4. Identify means of communication that shall be used by emergency workers

Note Hazard and [save] to add additional PPE

All response personnel required activities must meet the requirements of the Jobsite Hazard Analysis permit before responding to emergency. It is important to provide response personnel with the necessary information to keep them safe while responding to an emergency and from becoming another victim.

5. What are the emergency rescue plans in case emergency workers need to be rescued?

Note Communication method(s) and [save] to add additional methods

Air Horns/Sirens, Two-Way Radios, Hand Signals

Note element of the Rescue Plan and [save] to add additional elements

For life and limb threatening emergencies, call 911, send another employee to meet the responders at entrance, and render aid until help arrives.

STOP WORK

1. It is the obligation of every employee, contractor, and visitor to **STOP** observed or assumed unsafe acts, conditions, or behaviors when they are observed or discovered. If you see a risky situation, you own that situation until you stop the cycle of risk.
2. In addition, it is the obligation of every employee, contractor, and visitor to **STOP** and exit the immediate emergency when something does not go as planned, and reassess and replan before reentering the emergency.

Alarm System

The designated employee Alarm for this site is: Vocal

Site management shall implement an employee alarm system or tool that provides adequate warning for necessary emergency action for reaction time for safe escape of employees from the workplace or the immediate work area, or both.

The employee alarm shall be capable of being perceived above ambient noise or light levels by all employees in the affected portions of the workplace. Tactile devices may be used to alert those employees who would not otherwise be able to recognize the audible or visual alarm.

The employee alarm shall be distinctive and recognizable as a signal to evacuate the work area.
