## EMERGENCY ACTION PLAN

### Scope

This Plan covers the designated actions the Company and employees must take to ensure employee safety from fire and other emergencies.

## Evacuation

### Muster Points

In case of an emergency on this site, all workers must exit away from the emergency and toward the Primary or Secondary muster point.

**Primary Muster Point:** Front gate of corix facility

**Secondary Muster Point:** By the mobile office for integrated water services.

### Evacuation and Exit Pathway Drawing(s)

For sites that require visual instruction regarding exit routes and emergency muster points, a site emergency evacuation plan drawing shall be developed and attached here:

### Drawing Board

## Emergency Procedures

Employees and workers who remain in the emergency area to operate critical site functions and/or manage the emergency shall follow the following procedures. If the procedures loose their effectiveness, new procedures shall be developed by using the form [edit] function:

### 1. Identify the tasks associated with response personnel actions

Note Task and [save] to add additional task
In case of medical or fire call 911.
In case of fire. Stop what you are doing and head to the primary muster point by the front gate. For any reason that you can make it to that location head to the second muster point by iws mobile office between the connex and office.
N/A

### 2. Identify the hazards associated with with the above response personnel tasks

Note Hazard and [save] to add additional hazards
N/A

### 3. Identify the Personal Protective Equipment (PPE)required for response personnel

Note Hazard and [save] to add additional PPE
N/A

### 4. Identify means of communication that shall be used by emergency workers

**Note Communication method(s) and [save] to add additional methods**

Cell phone or any other way of some kind if needed

**5. What are the emergency rescue plans in case emergency workers need to be rescued?**

**Note element of the Rescue Plan and [save] to add additional elements**

As per local emergency services.

## STOP WORK

1. It is the obligation of every employee, contractor, and visitor to **STOP** observed or assumed unsafe acts, conditions, or behaviors when they are observed or discovered. If you see a risky situation, you own that situation until you stop the cycle of risk.
2. In addition, it is the obligation of every employee, contractor, and visitor to **STOP** and exit the immediate emergency when something does not go as planned, and reassess and replan before reentering the emergency.

## Alarm System

**The designated employee Alarm for this site is:**

Vehicle horn. 3 honks means emergency and everyone get to a muster point

Site management shall implement an employee alarm system or tool that provides adequate warning for necessary emergency action for reaction time for safe escape of employees from the workplace or the immediate work area, or both.

The employee alarm shall be capable of being perceived above ambient noise or light levels by all employees in the affected portions of the workplace. Tactile devices may be used to alert those employees who would not otherwise be able to recognize the audible or visual alarm.

The employee alarm shall be distinctive and recognizable as a signal to evacuate the work area.
