EMERGENCY ACTION PLAN

Scope

This Plan covers the designated actions the Company and employees must take to ensure employee safety from fire and other emergencies.

Evacuation

Muster Points

In case of an emergency on this site, all workers must exit away from the emergency and toward the Primary or Secondary muster point.

Evacuation and Exit Pathway Drawing(s)

For sites that require visual instruction regarding exit routes and emergency muster points, a site emergency evacuation plan drawing shall be developed and attached here:

Employees and workers who remain in the emergency area to operate critical site functions and/or manage the emergency shall follow the following procedures. If the procedures lose their effectiveness, new procedures shall be developed by using the form [edit] function:

Site management shall implement an employee alarm system or tool that provides adequate warning for necessary emergency action for reaction time for safe escape of employees from the workplace or the immediate work area, or both.

The employee alarm shall be capable of being perceived above ambient noise or light levels by all employees in the affected portions of the workplace. Tactile devices may be used to alert those employees who would not otherwise be able to recognize the audible or visual alarm.

The employee alarm shall be distinctive and recognizable as a signal to evacuate the work area.
