

Public Health, Delta & Menominee Counties Clinic Operations

Limited Services as of March 24, 2020

Women, Infants and Children (WIC)

Office appointments are no longer taking place. WIC benefits will continue to be issued. If you have questions or concerns about your WIC benefits please contact the WIC office at 906-786-4112. For questions regarding breastfeeding, or if you are in need of a breast pump, please call or text our Peer Counselor at 906-280-8239.

Personal Health and Family Planning Services

Limited services will be provided for current clients, by appointment only, for Depo-Provera injections and STI screening/treatment. If you are in need of birth control refills, please call our office at 906-786-4111. Condoms are available for non-family planning clients if needed. Staff is available to answer questions and assist clients by phone.

Children's Special Health Care Services (CSHCS)

No office/home visit appointments. Staff will continue to provide program services including Care Coordination and Plan of Care by phone. If you have questions or need assistance, please call 906-786-4111.

Immunizations

No immunization appointments at this time. If you have questions, please call 906-786-4111.

Environmental Health

Emergency activities will continue. Please contact Environmental Health at 906-786-9692 in Delta County, or 906-863-4452 in Menominee County.
