- Create policies for employees who test positive for COVID-19. Cases must be reported to the local public health department.
- Follow Executive Order 2020-36 and all orders that support it, that prohibit discipline, or otherwise retaliating against employees who stay home or leave work when they are at particular risk of infecting others with COVID-19.
- Encourage employees to use personal protective equipment and hand sanitizers on public transportation.
- Promote remote work to the fullest extent possible.
- Adopt any additional infection control measures that are reasonable in light of the work performed at the worksite and the rate of infection in the surrounding community.
