

KY ASSOCIATION OF CONSERVATION
DISTRICT EMPLOYEES

WHAT IS KACDE?

10-MINUTE TRAINING, SEPTEMBER

This training is brought to you by the KACDE professional development committee. The intent of this short training is to aid in the understanding of different topics for administrators, educators, and technicians alike.

KACDE

The Kentucky Association of Conservation District Employees (KACDE) was founded in July 1995. KACDE is a non-profit organization. Our primary objective is to help develop, promote, and strengthen conservation districts and their programs in the Commonwealth of Kentucky. The Association's governing body is an Executive Committee of five members and nine area representatives.

There are 121 conservation districts in Kentucky! Our goal is to develop and maintain a higher level of professionalism within these offices and to educate the district employees to be able to assist in determining policy and making decisions that affect each county.

KACDE has nine areas to represent fellow district employees. If you need administrative, program, or technical help, reach out! The KACDE representatives and officers are here to help you.

What can KACDE do for me?

- Relationships with counterparts across KY
- Networking with partners
- Leadership opportunities
- Training workshops
- Access to TechSoup
- Gain conservation knowledge
- Effective professional development
- Access to 501(c)3 status
- And more!
