Environmental Grants 101

Presented By
Penny Warwick

What is an environmental grant?

These grants are provided for projects that educate the public about pollution problems and demonstrate effective alternatives, as well as those that encourage the adoption of new management techniques or measures.

What can I do with a grant?

1 Dead Stock Removal

2 Septic System Repairs

3 Community Education Event

4 Tire and/or White Goods Recycling

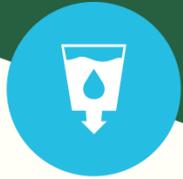

5 Purchase of Tree Seedlings

6 Local Cost Share

7 Soil and/or Manure Testing

8 Universal Waste Recycling

What have we provided with funding?

SOIL TESTING

We provide free soil testing at the Warren County Cooperative Extension office.

STOCK REMOVAL

This service provides up to 12 animal removals to Warren Co. residents. We partner with Warren Co. Stormwater Management to provide this program after grant funds have been depleted.

WORKSHOPS

WCCD has provided multiple rain barrel and composting bin workshops!

BACKYARD

CONSERVATION

This brings rain gardens, composting, bat houses, and more to backyards in Warren Co.

Conservation District Environmental Grant Application

The purpose of this program is to reduce agricultural non-point source pollution of surface or groundwater. This program exists to be able to address specific, local environmental issues with which the local conservation district is able to assist. This program is intended for creativity in solving local, unique environmental issues, to educate local citizens on conservation methods, and to utilize/demonstrate management practices to assist local operators to fulfill their Agricultural Water Quality Plans. The maximum funding amount for this grant is \$7,500.

Applicant Information:

Conservation District Application Date

Address City/Zip Code

Phone Contact Email GPS Coordinate

Enter the HUC in which practice will be located:

Does applicant have water quality monitoring data to demonstrate need for this practice? Yes No

*If yes, please attach a summary to this application.

Provide a list of pollutants that may be mitigated by this practice:

Is this application for:

- | | |
|--|--|
| <input type="checkbox"/> Dead animal removal | <input type="checkbox"/> Local cost share for practices identified in an AWQP, but not currently included in the state cost share manual |
| <input type="checkbox"/> Purchase of tree seedlings | <input type="checkbox"/> Local cost share practice that is identified by this conservation district as a solution to a problem that is unique to their area. |
| <input type="checkbox"/> Soil and/or manure testing | <input type="checkbox"/> |
| <input type="checkbox"/> The recycling and pick up of white goods or tires | <input type="checkbox"/> |
| <input type="checkbox"/> Cost sharing septic system repairs | <input type="checkbox"/> |
| <input type="checkbox"/> A community educational event | <input type="checkbox"/> Other |
| <input type="checkbox"/> Water Quality Testing | <input type="checkbox"/> |

Please provide a detailed description of the proposed activity in the space below. You may add additional pages if necessary. In addition, please complete the attached proposed budget template *for the project requested*, including the 25% match requirement.

How do I apply?

You can find the application on DOC's website:

<https://eec.ky.gov/Natural-Resources/Conservation/Documents/Conservation%20District%20Environmental%20Grant%20Application.pdf>

Is there reporting?

Quarterly reporting is required!

Utilize Partners!

If you are in need of more funding than an environmental grant provides, ask for help! WCCD works with partners in more ways than one. Partnerships not only have funding potential but networking, too!
