KDLA Local Records Program Grants

Grant Application Basics

Local Records Branch
Archives and Records Management
Department for Libraries and Archives

Goals of the Grant

The Local Records Program distributes grant funds to local governments to support and improve their records management programs and to assist with the maintenance, security, and preservation of local *public records*.

“all books, papers, maps, photographs, cards, tapes, disks, diskettes, recordings and other documentary materials, ***regardless of physical form or characteristics***, which are prepared, owned, used, in the possession of or retained by a public agency.” (KRS 171.410)

Eligible Applicants and Projects

725 KAR 1:050 Section 1

“Any local government office interested in improving the management and preservation of its public records” is eligible to apply for a grant. Successful applications will clearly demonstrate how the grant funds will be used to preserve or provide greater access to records in local governments.”

725 KAR 1:050 Section 3

Grant funds can cover “any project which seeks to improve the management and preservation of local public records”

Eligible Projects

- ☐ Security microfilming vital records or historically significant records
- ☐ Rerecording projects – for rerecording damaged records or records originally recorded with a nonpermanent process and are now losing their image
- ☐ Document preservation projects
- ☐ Purchasing document conservation supplies
- ☐ Establishing a local government records management program or archives
- ☐ Arranging and describing archival holdings
- ☐ Purchasing supplies and equipment

Eligibility Considerations

- Grant applicants with open Local Records Program grants are not eligible to apply for a current grant until all prior grants are officially closed.
- Grant applicants are eligible to apply for one (1) Local Records Program Grant per grant cycle.
- Grant applicants that have previously received Local Records grant funds for Codification may apply for a second codification grant, but not for the same codes.
- Security Microfilming Record Cut-off Date: To allow for the uniform preservation of permanent records, the security microfilming of permanent records shall adhere to a rolling ten (10) year cut-off date.

Completing the Application - Bid Process

- Review the Local Records Program Grants Guidelines and Grant Application.
 - ◆ Follow Guidelines and review Application at the start in order to gather all information needed.
- Choose the Project

- Applications that do not include the Invitation for Bid Proposal and Invitation for Bid Proposal Attachment(s) are ineligible for funding
- Applications that contain contractually signed (applicant/vendor) bid proposals are ineligible for funding
- Salary grants are only awarded in the first Cycle (or Cycle 1)
- Salary funds may not be combined with other funding requests within the grant application
- The vendor site visit date must be included in the vendor bid(s)

Once all bid responses are received, you will select the lowest bid vendor(s) and include the bid total(s) in the applicable Sections within the application. The application is available on the KDLA website: Local Records Program Grants Kentucky Department for Libraries and Archives.
