

SPECIALIZED FREIGHT. **TRUSTED DELIVERY.**

Transportation solutions for freight that requires precision, responsiveness and accountability.

Truckload | Flatbed & Specialized | Heavy Haul | Project
Cargo | Expedited

5280 LOGISTICS SOLUTIONS, LLC

Transportation Built Around Your Freight

5280 Logistics Solutions provides professionally managed transportation for manufacturers, distributors, contractors, suppliers and project-driven organizations throughout the United States.

01 TRUCKLOAD

Dry van transportation for scheduled, recurring and transactional freight.

02 FLATBED & SPECIALIZED

Flatbed, step deck, RGN and specialized equipment for machinery, construction materials, electrical equipment and oversized freight.

03 HEAVY HAUL & PROJECT CARGO

Transportation planning and carrier coordination for oversized, overweight, high-value and project-critical shipments.

04 EXPEDITED & TIME-CRITICAL

Responsive transportation solutions when production schedules, project deadlines or customer commitments leave little room for delay.

05 CROSS-BORDER

Transportation support for freight moving between the United States and Mexico, including major Texas gateways.

From routine truckload to complex project freight.

One transportation partner. One point of accountability.

CORE SERVICE PRINCIPLE

Match the right equipment and carrier to the freight - then manage execution through delivery.

Built for Complex Supply Chains

Our focus is on industries where transportation execution directly affects operations, production and project schedules.

- | | | |
|----|---|--|
| 01 | ELECTRICAL INFRASTRUCTURE | Switchgear • Transformers • Power distribution equipment • Critical power systems • Industrial automation |
| 02 | CONSTRUCTION & PROJECT CARGO | General contractors • EPC projects • Steel fabrication • Modular construction • Industrial projects |
| 03 | DATA CENTERS & MISSION CRITICAL | Electrical infrastructure • Generators and backup power • Cooling equipment • Modular systems • Mission-critical materials |
| 04 | INDUSTRIAL MANUFACTURING | Machinery and equipment • Components • Raw materials • Finished goods • Plant and project freight |
| 05 | HEALTHCARE & SPECIALIZED FREIGHT | Medical equipment • Healthcare supply chains • High-value and service-sensitive shipments |

THE FREIGHT BEHIND CRITICAL INFRASTRUCTURE

Equipment, materials and components that keep projects, plants and supply chains moving.

Freight Management With Accountability

Our role does not end when a carrier accepts the load. 5280 is built around precision, reliability and integrity, with processes designed to provide greater visibility and accountability throughout shipment execution.

WHAT CUSTOMERS CAN EXPECT

- Carefully selected and vetted carriers
- Specialized and project-freight coordination
- Proactive shipment monitoring
- Responsive exception management
- Clear, responsive communication
- POD and shipment documentation
- Equipment matched to freight requirements
- Single-point accountability from pickup through delivery

MBE/WBE

MINORITY & WOMAN-OWNED BUSINESS

Precision. Reliability. Integrity.

**LET'S MOVE
SOMETHING.**
