# TARIFF COMMUNICATION

**Dear Valued Customer,**

Due to the impending 25% tariffs imposed by the U.S. on imports from Canada and Mexico and expected retaliatory tariffs from Canada, Vending Products of Canada is closely monitoring the situation, which could lead to potential price adjustments starting April 1, 2025.

**Unfortunately, this issue is beyond our control. Prices may change without notice, and manufacturers may limit order quantities based on stock availability.**

We are actively assessing the situation to understand its potential impact on demand, pricing, and supply chain operations. We have maintained direct communication with our key U.S. manufacturers, supply chain partners, and importation brokers with a clear message:

“All prices may be subject to change without notice. Additionally, manufacturers reserve the right, at their sole discretion, to limit quantities on any order based on stock availability and fair, proportionate allocation.”

As soon as we receive any updates, we will communicate them to our customers immediately. Here's what you need to know:

- **Tariff-Impacted Products:** This tariff-related price adjustment will apply to a select number of SKUs (“Tariff-Impacted Product(s)”) via a change to the associated list price.
- 
- **Effective Date:** New pricing for Tariff-Impacted Products will take effect on April 1, 2025.
- **Tariff Changes:** Vending Products of Canada will need to adjust our list prices in response to any potential changes in current or future tariffs implemented by the Government of Canada in reaction to U.S. tariff policies.

We remain committed to providing you with the best service and value and are diligently working to minimize the impact of these changes. If you have any questions or need further clarification, please don't hesitate to reach out to your account representative or contact us.

We appreciate your continued support and look forward to serving you.
