

Barrie House Product Update

To our valued customers, we have two updates to our product line that I would like to share with you.

Kona Blend 24 ct K-cup

Our Hawaiian Kona coffee blend is changing. Due to current coffee labeling regulations, Barrie House Coffee is required to provide 10% Kona coffee in our product, whereas our prior blend had 3% Kona coffee. Please see the details below regarding new product codes and costs. Effective immediately we will be discontinuing our current Hawaiian Kona Blend, item BX00680 and we will be replacing it with our new 10% Kona Blend, item number BX-23140 that will go into production the week on July 19th, 2021, ready for delivery soon after. Please the artwork and product details below.

Asian and African single origin 24ct k-cup

Due to the dramatic increases in coffee prices, we are forced to take a price increase on our Indonesian Sumatra FTO Coffee (BX-21610) and our Ethiopian Yirgacheffe FTO Coffee (BX-21603). Product codes and all other details regarding these coffees will remain the same. Please see below for all product details.

Barrie House Brand

<u>Item Description</u>	<u>BH Item</u>	<u>GTIN</u>	<u>UPC</u>	<u>Cs Pack</u>
Coffee 24ct (Single Serve)				
Indonesian Sumatra (FTO)	BX-21610	10032561006907	0-32561-00690-0	4/24ct
