

Subject : Price increase

September 6th, 2022

Dear valued customer,

Many industries including ours are experiencing upward pricing pressure. Over and above the raw material increase, we see an increase in transportation costs and the impact of the higher American exchange rate.

Because of current market conditions, it is necessary to deliver a price increase on our accessory products such as hot chocolate, cappuccino, soluble, coffee whitener, cups, filter, etc. The price increases will be applicable for all orders starting October 6th, 2022.

The increases will vary depending on the type of products. As always, our sales representatives are available and committed to work with your organization to minimize the impact of this coming increase.

Best regards,

Rémi Tremblay
President
Café Vittoria Distribution inc.
