Dear Valued Customer,

At Muldoon's we pride ourselves on three central cores:

- 1) *Crafting the finest coffees in North America*
- 2) *Providing the finest customer service to every one of our valued clients*
- 3) *Providing the best value for the best price to those clients*

That said, as with many industries and supply chains over the last few years we have encountered an increase in the costs associated with our product and the manufacturing of our craft roasted coffee. During this time, we have sought to continue to provide our breakroom products and services at the same amazing prices we have maintained for a very extended period. At this time, we have found we can no longer do so and so you will notice going forward a small increase on some products. We assure each of our clients we have kept this increase as low as possible and we are confident each of you will continue to experience the incredible value you have enjoyed on our quality products.

We appreciate your business and partnership with us and look forward to continuing to grow our mutually beneficial relationship in the future.

Cheers,
