

New England Veterinary Conference

September 14-17, 2017

Portland, Maine

New England Veterinary Medical Association 2017 Board Members

President: Rich Armstrong, DVM (Vermont) is a partner at Hinesburg Veterinary Associates, a two-hospital small animal practice in northwestern Vermont. He received his DVM from the University of Georgia, graduating in 1995. Dr. Armstrong and his wife Kristin, also a veterinarian, live in Hinesburg, Vermont with a multitude of dogs and cats. He enjoys playing drums in a band and cheering on the Georgia Bulldogs football team when he's not practicing veterinary medicine.

President-Elect: David Stowe, DVM (New Hampshire) is a graduate of the Cummings School of Veterinary Medicine at Tufts. Dr. Stowe is a Past President of the NHVMA. He currently serves on the NH Board of Veterinary Medicine and the Advisory Board of the NH Veterinary Diagnostic Laboratory, and is an AVMA Alternate Delegate. When not involved in veterinary medicine, he spends his time with his family and enjoys sailing, hiking, and rowing.

Treasurer: Michele M. Consiglio, DVM (Rhode Island) is chief of staff at West Shore Animal Clinic in Warwick, Rhode Island. She received her DVM from St. Georges University in 2004 and performed a clinical rotation at Louisiana State University. Dr. Consiglio is a Director of the Rhode Island Veterinary Medical Association, a member of the Rhode Island Board of Licensure and was named Rhode Island Veterinarian of the Year in 2013. She spends her spare time with friends and family, which includes three black cats and a Boston Terrier.

First Vice President: Mary Labato, DVM, DACVIM (SAIM) (Massachusetts) is a Clinical Professor in the Department of Clinical Sciences at Cummings School of Veterinary Medicine at Tufts University. She received her DVM from Tufts in 1983. She is a Past President of the Massachusetts Veterinary Medical Association and is the 2014 recipient of the Massachusetts VMA Distinguished Service Award. Mary and her husband Paul share their home with two Bernese Mountain dogs and two cats.

Second Vice President: Kristine L. Hoyt, DVM (Maine) owns Cats on Call, a feline-only practice in Scarborough, Maine. She received her DVM from the University of Wisconsin in 1990 and initially trained to work with zoo animals before completing an internship in small animal surgery and medicine. In the summer of 2010, she traveled to Botswana, where she worked in the bush, tracking leopards for the purpose of placing radio collars. She lives at Higgins Beach with her daughter, three cats, and one dog who thinks she is a cat.

Third Vice President: Edward Grace, DVM (Connecticut) is a partner at Bolton Veterinary Hospital, a 23 doctor small animal and emergency referral hospital in Bolton, Connecticut. He is a 1988 graduate of Purdue. Dr. Grace lives in Coventry Connecticut with his wife Susan, son Adam, and their dog Daisy. Dr. Grace has served on several town committees, the CVMA board, and was for 16 years the Cross Country coach for Coventry High School. When not working, his interests include running, cycling, Nordic skiing, and piano.

Immediate Past President: Robert Belden, DVM (Connecticut) is a 1993 graduate of Ross University and has owned New Milford Animal Hospital in Connecticut since 1997; one of his ancestors, in fact, arrived in New Milford in 1734. Dr. Belden, his wife, and their daughter live in Woodbury when they are not attending family events related to their 27 nieces and nephews. Dr. Belden is a Past President of the Connecticut Veterinary Medical Association and is the current Assistant Governor for Rotary District 7890.

Executive Director: Forrest Bell has been assisting with the NEVMA conference for several years and works closely with the NEVMA Board of Directors. He is the founder and owner of a science-based consulting firm, FB Environmental Associates. Forrest lives in Maine and is the father of three active children.

The New England Veterinary Medical Association is essentially a federation, with each New England state VMA appointing or electing a Director, whose primary purpose is to plan this annual Conference, now in its 83rd year. Every veterinarian who is a member of a New England state VMA is also a member of our New England VMA. In recent years almost all of the annual net financial gain from this Conference has been distributed in equal shares to the charitable foundations of the six New England VMAs and to the Veterinary Scholarship Trust of New England (VSTONE).

Our Conference now also hosts the Northeast Veterinary Leadership Meeting, at which the top elected leaders and staff of the New England states and New York discuss key issues with AVMA leadership and Region One Delegates, the Dean of Cummings School of Veterinary Medicine at Tufts and New England's state and federal regulatory veterinarians.

Welcome to the 83rd New England Veterinary Conference

It is my pleasure to welcome you to Portland, Maine and the 83rd annual conference of the New England Veterinary Medical Association! During this long weekend, we hope you not only receive great continuing education but also get a chance to experience the local attractions, restaurants, and scenery that this great New England city offers.

Once again, we're providing four full days of excellent CE, including hands-on labs and workshops on animal rehabilitation, small animal ophthalmology, wound closure, and abdominal ultrasound and lectures covering topics such as practice management, endocrinology, surgery, back yard chickens, wildlife medicine, veterinary forensics, neurology, and two topics dear to my heart – end of life care and fear-free practice. One of the tenets of our mission statement is to offer quality education to those who support our practices every day – our technicians. From anesthetic monitoring to nutrition to Fear Free, we've got quality CE for our techs. Also, equine topics this year include ophthalmology, imaging, and surgery.

Make sure to download our conference app, which is integrated with our registration system and gives you access to your personal conference schedule and the speakers' notes, as well as enabling you to communicate with other attendees directly once you are logged in.

As usual, we have a great lineup of social events and outings that are sure to immerse you in the Maine experience. One of the highlights is a one-of-a kind party on Friday night featuring live music (OC and the Offbeats, one of Portland's best) and a grilling throw down using Maine flavors (yes, that means lobster among other things!).

We hope you have a great time at the conference and in Portland and please let us know via the attendee survey or in person (just look for one of us in the blue vests) if there is anything we can do to make the conference better than it already is.

Thanks for joining us.

Rich Armstrong, DVM

2017 President, New England Veterinary Medical Association
