# ABOUT THE PG *Training Course*

Our training course is meticulously designed to provide students with an in-depth understanding of machine hairstrokes and shading techniques in permanent makeup. Each day features a structured lesson plan that includes extensive hands-on training.

At the conclusion of the course, students will be required to take a 25-question written quiz to evaluate their newly acquired knowledge. Once you successfully pass the quiz, you will have the opportunity to work on your own model under close supervision. Following the successful completion of both the quiz and the model application, you will receive a completed body art license application ready to be filed in whichever county you will be operating out of, along with a certificate of course completion.

In addition to technical skills, this course encompasses essential business and marketing components, providing links to necessary resources for service delivery, as well as guidance on photography and editing. We are committed to offering lifetime support and continuous education, (recognizing that training is an ongoing journey) without any additional costs.
