

This Repair form is for 1996 – 2000 Caravan, Voyager and Town and Country Instrument Clusters

This repair is for intermittent operation, erratic gage operation, intermittent PRNDL or odometer segments and a variety of other instrument cluster related issues on 1996-2000 Caravan, Voyager and Town and Country instrument clusters.

Complete this form and mail it to us along with the IPC and a check for **\$125.00** made payable to: **The Driveability Guys. 82 E. Hummingbird Ave. Cortland, IL 60112.**

NOTE: if you would like to save money on shipping, remove the plastic housings and just mail the circuit board. This will reduce package size.

Return shipping is included. Turn-around time is usually 1-2 business days from the time we receive the component.
