

This Repair form is for 2000 – 2001 Nissan Maxima ECM/ECU's

2000-2001 Nissan Maximas with a P0505 and idle issues can be caused by an IACV that damaged the driver in the ECU. This repair will resolve the driver issue in the ECU. **IACV replacement is REQUIRED** before installing the repaired ECU or immediate ECU damage will occur.

Complete this form and mail it to us along with the ECU and a check for **\$180.00** made payable to: **The Driveability Guys. 82 E. Hummingbird Ave. Cortland, IL 60112.**

Return shipping is included. Turn-around time is usually 1-2 business days from the time we receive the component.
