Job Title: Engineer-in-Training (EIT) / Engineer Intern (E.I.) – Civil
Reports To: Project Manager / Licensed Professional Engineer (P.E.)
Location: Venice, Florida

Role Summary

An **Engineer-in-Training (EIT)** performs entry-level technical design, analysis, and project support under the supervision of licensed engineers while working toward Professional Engineer (P.E.) licensure. Responsibilities include office engineering, CAD/design work, permitting, and field site visits.

Key Responsibilities

- Design & Calculations: Assist with site layouts, grading, drainage, utilities, and roadways, and perform engineering calculations, quantity takeoffs, and cost estimates.
- Plans & Reports: Draft and revise engineering plans, technical reports, maps, and project documentation using AutoCAD Civil 3D.
- Permitting & Coordination: Prepare permit applications and coordinate with clients, contractors, surveyors, and local or state agencies under senior staff guidance.
- Field & Construction Support: Conduct site visits, gather field data, observe construction progress, and assist with submittals and Requests for Information (RFIs).
- Project Tracking: Support project schedules, budgets, quality control, and meeting documentation.

Required Qualifications

- Education: Bachelor's degree in civil engineering or a closely related engineering discipline from an ABET-accredited university.
- Certification: Passed the NCEES Fundamentals of Engineering (FE) exam and hold—or be eligible to obtain—Florida Engineer Intern (E.I.) / EIT certification.
- Technical Skills: Familiarity with AutoCAD Civil 3D, engineering design standards, and Microsoft Office applications (Word, Excel).
- Professional Skills: Strong written and verbal communication skills, high attention to detail, and a strong work ethic.
- Field Readiness: Ability to perform fieldwork and site visits, along with a valid driver's license.

Preferred Qualifications

- Prior internship or co-op experience in land development, public works, or civil site design.
- Familiarity with sustainable site design practices, Low Impact Development (LID), and/or LEED standards.

Compensation & Benefits

We offer a competitive salary based on experience, skill level, and responsibility, alongside a comprehensive benefits package that includes:

- Employer-paid health insurance
- 401(k) retirement plan
- Long-term disability insurance
- Generous paid time off (PTO) and paid holidays
